June 800 attendance

Knowing that you are regarded as an authority and an author of many books on basketball I feel you are the proper person to settle all of our disputes concerning the game. Since most of the boys connected with these arguments are from different sections of the United States and each think their section is the answer to the question arising. We have all agreed to except your decision as the answer to our arguments.

to know what High School Conference tournament is the largest in the Nation? Which state is rated as the Basketball State of the Nation and which State has more basketball per capita. Also how many high school teams this state has compared to its nearest rival.

The boys all respect your judgement on these topics and any information you may give us will be deeply appreciated by myself and the boys.

Yours Resp.
