

The basis of allocation of the National quota to each chapter was made on population, distribution and type of population, that is, whether communities are rural, urban, industrial, and per capita wealth. You may be sure that chapters were not penalized this year because of doing a splendid job last year.

It is sincerely hoped the above information will reassure you and your community and wishing you every success in your campaign.

Sincerely yours,

Harold R. Fowler
Regional Director
Arkansas, Kansas,
and Oklahoma
