

The word "re-creation"
The word recreation is heard today
on every hand. Yet indely different
meanings are attributed to it, and it
is applied to a great variety of activities.

Dr. John H. Finley has pointed out "
The word recreation is broad enough to
include "play" in its every expression
and also many activities that are usually
not thought of as play - music, the drama,
the crafts, every free activity and
especially creative activity for the
enrichment of life."
