

January 22, 1943.

To Whom It May Concern:

I am very happy to state that I have known Miller Allen Cameron, a former student at the University of Kansas, for five or six years. Cameron graduated from Wichita East High School in 1938 and entered the University of Kansas that fall.

He played on the freshman football, basketball and baseball teams at the University, and was on the varsity football squad. He entered the University of Oklahoma in September, 1940, and withdrew from the University of Oklahoma in 1941 to enter war work. He is a fine athlete, observing his training rules in excellent fashion.

He is clean, capable and personable. He knows the meaning of the word loyalty and has the ability to make friends. I feel justified in recommending Mr. Cameron for the A.V.S. Engineering in the U.S.N.R.

I would recommend him without reservation or evasion.

Sincerely yours,

FCA:AH

Director of Physical Education,  
Varsity Basketball Coach.
