

June 23, 1942.

To Whom It May Concern:

I have been asked by Calvert Johnson Winter, Jr., to write a testimonial in his behalf. I understand that he is applying for admission to the National Marine Reserve.

I have known Calvert Winter for at least ten years and have always found him a most trustworthy and capable young man. At the present time he is a junior in the College of Liberal Arts and Sciences. He made his freshman numeral in baseball in 1941, and this year, 1942, he was a member of the varsity baseball squad.

He is majoring in mathematics, and stood in the upper ten per cent of his high school graduating class, at the Lawrence Memorial High School.

He is very clean and serious-minded. He is trustworthy and he knows the meaning of loyalty to the nth degree. He is highly intelligent, is cooperative and most dependable. He is very clean in his personal habits, being an abstainer from narcotics of all kinds. His father, who is Professor of Spanish in the University, has been a member of the faculty for a great many years.

I am very glad to recommend this young man to you without reservation.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball and Baseball Coach.
