10. Each school is to exchange with all others squad information primarily for pre-game publicity purposes. This information should include number, name, position, height, weight, home town, year on varsity, men lost by graduation, veteran letter-men returning, and all team records which may add to newspaper interest.

11. Each game is to be played with a molded ball of the Riddell or Rawlings type. The game ball is to be inflated to a pressure which will result in a legal bounce when tested on the game playing floor.

Comment: There was some discussion as to the possibilities of agreement by two schools to use other types of ball. No vote was taken. By common consent it was agreed that a shift in the ball could be made by mutual agreement of those concerned without consent of other schools.
