

March 25, 1942.

Mr. George Trombold,
Personnel Director,
Boeing Aircraft Corporation,
Wichita, Kansas.

Dear George:

I understand that George T. Crawford, of 1607 West 37th Street, Kansas City, Missouri, a son of our Professor C. C. Crawford of the History Department, is applying to your corporation for a position in your plant.

I have known young George Crawford for a great many years, and I would consider it a personal favor if you would give his application your very careful consideration.

George Crawford at the present time is employed with the U. S. Epperson Insurance Agency in Kansas City. He has an office of his own with a secretary and gives dictation and makes inspections in the field. He is anxious to enlist in the service of his country in some constructive way, and he believes that the type of work for which he is applying will be a definitely constructive thing. He graduated from the School of Business here at the University in 1934. In high school he was much interested in athletics, having competed on the high school team in the high jump, broad jump, and so forth.

When Professor Crawford went to Minnesota as a visiting instructor at the University, his family accompanied him, and while there George competed in swimming and other physical activities. However, military science and tactics occupied a great deal of his time up there and when he re-enrolled at the University of Kansas he did not follow his athletic talents to conclude them. But he was a star swimmer and he is very active in sports. At the present time he is an active member of a club in archery in Kansas City, so you see he has a lot of initiative.

George Crawford was a high ranking leader in his academic work at the University. I am very fond of him and his entire family, and I would appreciate any consideration that you can give to his application.
