Kansas University
Lawrence, Kansas

Dear Phog:

Let me express our appreciation again for your kindness in driving out here to deliver that magnificent address to our basketball boys. It went over one hundred percent, and the comments about the square on the following morning were most laudatory. Whether you realize it or not, you are most certainly doing a great work for the young manhood of Kansas, and I congratulate you upon your ability to get your message across.

I am ashamed to think that Lyons treated you in such a shabby manner as robbing your gas supply, and causing you the trouble that it did. You deserved much better treatment, and I apologize for our city.

Thank you so much for your kind invitation to my brother Ted. I am hoping that you also issued an invitation to the big boy that I pointed out to you, A.B. Turner.

I spoke to you about my attempt to get in the Officers Training of the Army. I wonder if you would feel at liberty to send me a letter of recommendation in regard to my ability as to leadership and the handling of young men. It would help immensely, I am sure. For your own information, I have served as President of the Chamber of Commerce, and as President of the Kiwanis Club, our only service club. I have also kept in touch with the boys of high school and college age. Thanking you for past favors, I am

Most Sincerely Yours,

Max White
