

April 2, 1942

Dear Doc:

I have been in the United States Army for five months now, and am eligible to apply for Officers Training School. Yesterday I applied for Officers Training in the Medical Administration Corps. The board of officers here which selects applicants requires each applicant to present a number of letters of recommendation for this training. If you feel you can recommend me, I will appreciate it greatly if you will address a letter to "To Whom It May Concern," and address the envelope to me here.

I have been receiving the Kansas City Star here and followed with much interest your team of this year. Would certainly like to have been able to see them, especially the K.U.-Oklahoma Aggie game in Kansas City. Guess that must have been some ball game.

Also read of the ceremony and tribute paid to you in Lawrence recently. Congratulations!

Thanking you for this consideration and pulling for your continued success, I am,

Sincerely Yours,

*George L. Bowles*
