Dear Phog:

Would you mind telling me confidentially or otherwise how many games of basketball you schedule your team to play in any one season? How many are within the state? How many on your own campus and how many out of the state? That is to say, how much travelling do you allow them to do?

Our team played some 23 games last year. I think that is too many games. Am I right or wrong?

Thanks for any help you can give me. We will be seeing you one of these days down here.

Cordially yours,

W M Jardine
