

James W. "Bill" Greene is one of the outstanding majors in our Department of Physical Education. He is a fine student and athlete, clean-cut, serious in his intentions, a young man who attracts boys and young men by his personality and character. He will make an excellent coach and teacher, in my estimation. He makes a pleasing appearance, has high qualities of initiative and leadership, and has high moral standards. I am glad to recommend him without reservation or evasion.
