

August 3, 1940.

Superintendent E. B. Watson,
Lakeside Vineland High School,
R. R. #1,
Pueblo, Colorado.

Dear Superintendent Watson:

I have been asked by Howard Trabant to write you concerning his ability as basketball coach and teacher of history.

Howard's minor was social science and biological science, while his major was Physical Education. I have known Howard for several years and have always found him to be a most upright and honorable young man. He knows the value of an education because he worked at night as a baker's helper and pursued his University course during the day.

I have had him for several courses and found him a purposeful young man. He was enrolled in my course in basketball coaching and also in the theory and practice of athletic training, which is the treatment of athletic injuries, first aid, and so forth.

Doubtless you have received recommendations from the Teacher Placement Bureau of the University of Kansas. They, of course, will be able to give you more definite information on his practice teaching and other methods courses here at the University.

Trusting that you will give Mr. Trabant your very careful consideration, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
