

May 14, 1940.

Mr. William L. Ainsworth,
918 Union National Bank Bldg.
Wichita, Kansas.

Dear William:

I desire to write you concerning Steve Meade, a fine football prospect, an excellent student and a pledge of the fraternity. Steve came from Kansas City, Kansas, without much ballyhoo. He has won a place in the hearts of the professors, the students and the athletes here at the University.

His first semester grade average was 2.4, so you can see that he is a brilliant student. He has worked at every available hour that it has been possible for him to work because it has been necessary for him to do so to stay in school by this activity.

I know of no young man in my memory that has made good with as little help in all directions as has Steve. He is clean, fine and personable, and anything that you can do for him, I assure you will be done for a most deserving young man who desires an education and who will activate himself in every possible way to attain it.

Steve desires a job which will call for hard labor so that he may get in shape for football. He made a most enviable record with the freshman team and I am sure that he will make the varsity without difficulty as he has what it takes.

Thanking you for your kindly cooperation, I am

Yours in the bond,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
