

We were delighted to have a call at the office this week from Major E. R. "Eddie" Elbel, a member of the Physical Education staff who is now on leave for military service. Major Elbel has just completed a two months course in New York City at the Institute for Crippled and Disabled, on exercise and has written a manual/for the use of men in the rehabilitation program. Major Elbel's new assignment is in research in the school of aviation medicine at Randolph Field. Dr. Peter Karpovitch, a former classmate of Major Elbel's at Springfield College, Mass., is also associated with him in this important rehabilitation work.
