Dr. Forrest C. Allen,
Kansas University,
Lawrence, Kansas.

Dear Phog:

We listened to the ball game last night and want to congratulate you on the excellent showing your team made against Mr. Kurland. His height is just too much for any ordinary player. It looks to me like we are going to have to get the O.P.A. to put a ceiling on basketball players.

You have had a very successful season and we all appreciate the very fine work which you are doing with the basketball players there at K. U.

Very truly yours,

FMR:lhb
