Dear Mateel:

I am getting around to answering your letter rather late as I am disappointed that I could not answer it by speaking to you personally at the Garden.

Thanks for your kind wishes for our success regardless of the outcome. One man seven-feet tall was just too much for our normal human beings to take care of. However, we will be trying just that much harder next year.

I do appreciate your good wishes from Jayhawkers who never let down.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
