Dear Jack:

I was delighted to have your letter of March 19, from Salt Lake City. Yes, indeed, I do remember you and your lovely wife, Helen Hay Richardson. Jack, we are tickled to death to put you on the mailing list for the Jayhawk Rebounds. I'm sorry we didn't have you on before.

Paul and Margie Masoner are a great pair. I see Lester McCoy occasionally, and how fond grandparents are can only be surmised when they start talking, and let it be said here and now that Lester does do some talking about his grandchild and the parents of this fine grandchild.

I saw Fred Pralle in Denver where the Oilers were playing for the championship. I left in the middle of the week but not until I had worked on Fred's knee. He is a great boy. And are there any better fellows than Theno Graves?

Golly, I am darn sorry about that compound fracture. I know what those are. I am glad that you are making progress and I am hoping that you will be fully recovered before long. You certainly put a high evaluation on that K card. I feel as you do, being one of the possessors of the coveted K.

Yes, it is darn tough to lose men like T. P. Hunter and Bill Beven and Fred Eberhardt and the rest of the good boys that have gone.

Thanks for your kind wishes, and remember me to your good wife. The Rebounds will tell you some about our family and we will keep you advised from time to time if they make news. Mrs. Allen is well and is expecting Eleanor back April 9. She is coming for a month's visit from Philadelphia. Bob and Jean McFarland Allen were down Sunday, and Bob and I engaged in nine holes of golf. When we returned from the Country Club, Mrs. Allen called Eleanor and Gil Williams, her husband, at Philadelphia, and all of us had a twenty-minute visit with them. It was a lot of fun but I imagine when the bill comes in Mrs. Allen will still figure she got double her money's worth.

With all good wishes to you and yours, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

19 March 1945
Salt Lake City

Dear "Doc",

My wife, Helen (Hay), and I are now settled in Salt Lake City where I am assigned at the Army Air Forces Overseas Replacement Depot, Camp Kearns, Utah. It seems we have been constantly on the move for the past two years and everywhere we see Kansas friends, they are singing praises of your "Rebound" news. So, I'm hoping it won't seem too pointed for me to add a request to be placed on your mailing list to my congratulations on your fine work.

We just had a short visit with Lt (j.g.) Paul and Margie Masoner in San Francisco where Paul was awaiting transportation to a new duty assignment in the Pacific. Also we looked up Fred Pralle recently in Los Angeles when the Oilers played in Los Angeles. His knee was in bad shape and he didn't play that night. He couldn't help wishing you were near enough to work on that tricky knee. After the game we had a short visit with Thero Graves - now in Navy PT program at U.S.C. as you probably know.

I recently returned from England with a compound fracture garnered in a vehicle collision there. I was busily engaged in gathering supplies for the field hospital

U. S. ARMY AIR FORCES

I was supply officer for - attached to the 9th Air Force in England. I was flown back from England and lost all my clothes and belongings in the shuffle. My biggest worry was that my "K" card was among the missing articles - but, months later, part of my equipment reached me - and, with it, the "K" card.

It is certainly tough to hear of losing men like T. P. Hunter and Bill Beven - here's hoping there are no more.

Now that I have an address that I expect to keep for some time, I will certainly appreciate being one of the Jayhawkers on your mailing list if you can arrange it. Congratulations, again, on your good work and best regards to your family.

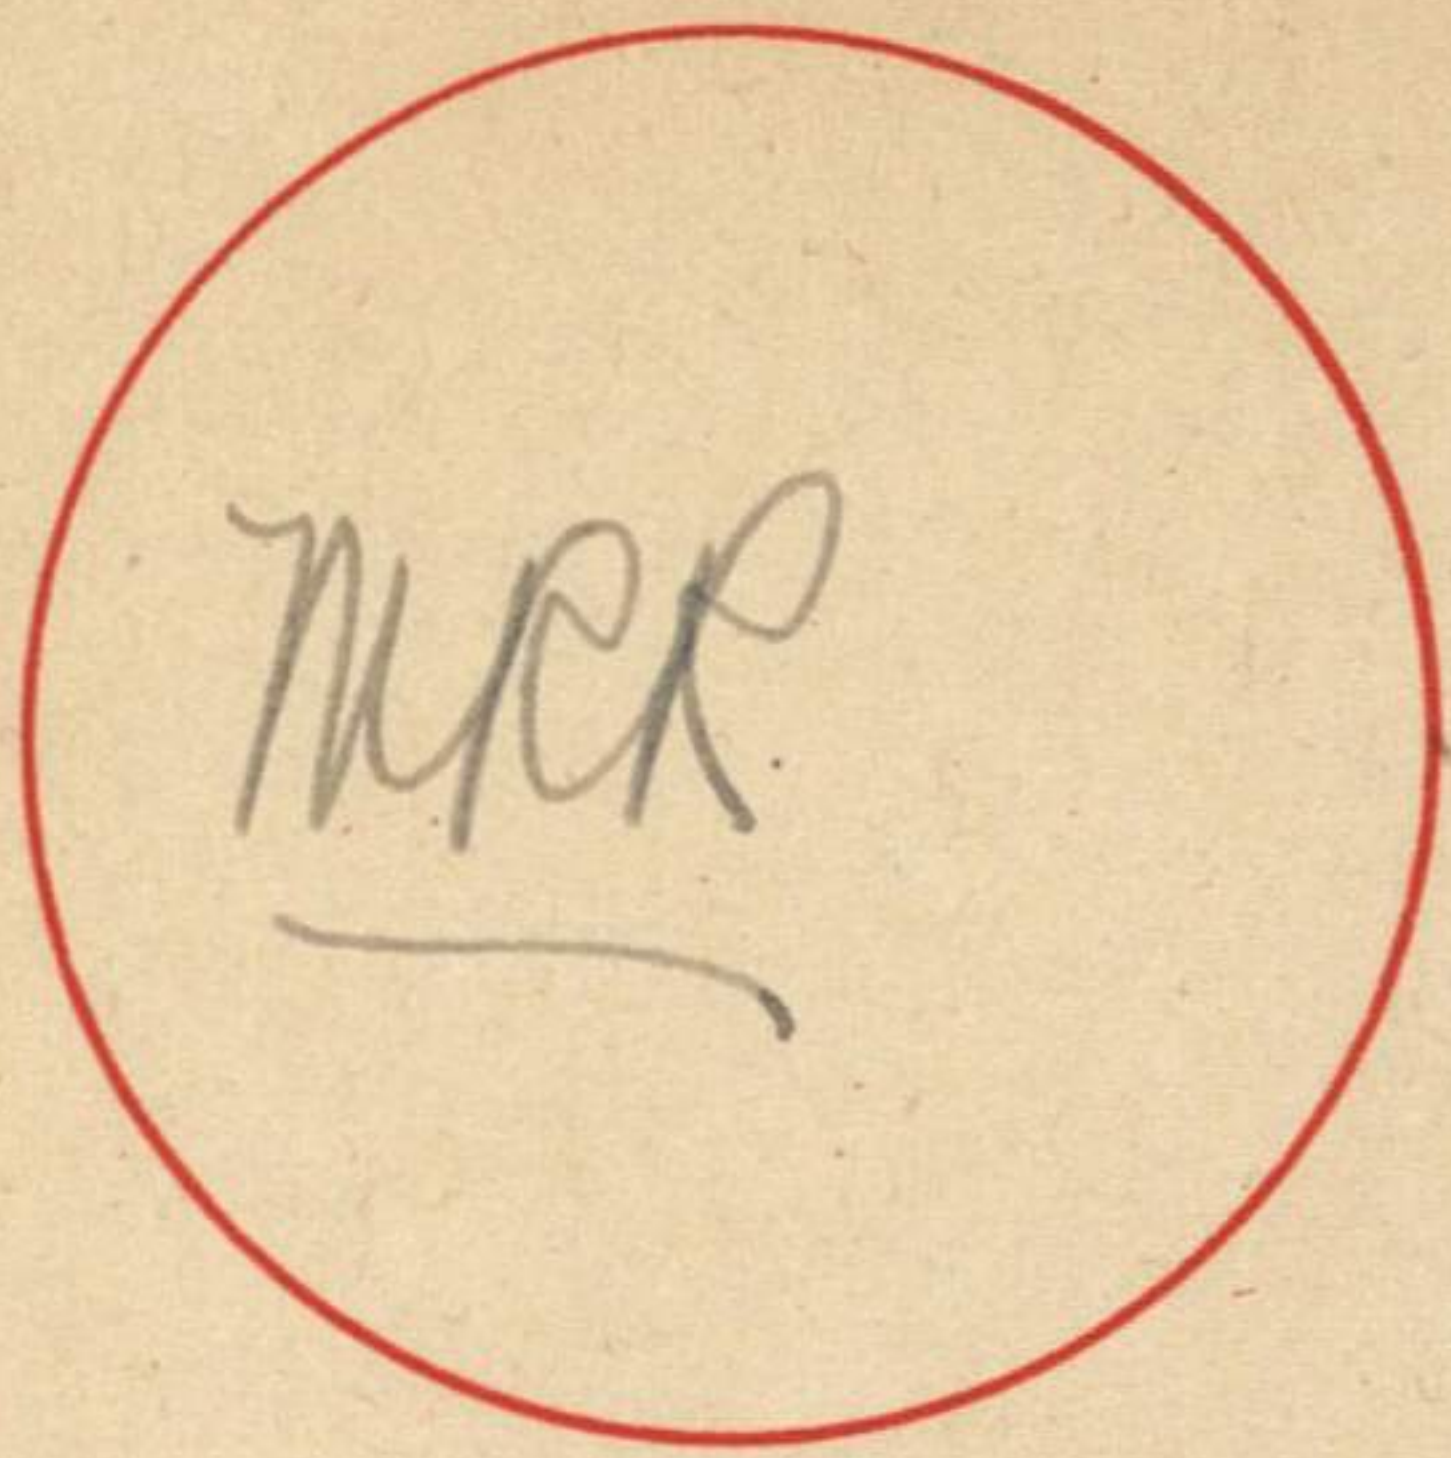

Sincerely,

Jack Richardson

Dear Harold:

I acknowledge receipt of the checks for \$12.50, for which I thank you. I assure you this is entirely satisfactory. I was happy to be with you good people.

I note what you say regarding the Colorado State job. You can count on a good strong recommendation, I assure you.

I am glad that Carl is doing much better in his school work. I know that will make the family happy.

I too am glad that I said the right thing at the banquet.

With all good wishes to you and Mrs. Reade and the young man, I am

Dear Dr. Allen:

I am a little late in getting your expense check for speaking at our Athletic Banquet. I trust \$12.50 will be sufficient to take care of your expense. If not, kindly drop me a letter.

In regard to this Colorado State job, it seems that they do not plan to hire a man soon. It seems to be sort of a post war set up. I am definitely interested in a college coaching position, but something a year away or more is rather indefinite. So I don't know just how much I will push the thing. If conditions develop favorably, I will be looking to you for a recommendation. A letter from you will certainly have its just bearing on my success in landing the job.

We are starting in our last six weeks of school. Another year will be over before we know it. Carl is doing much better in his school work now that pressure of basketball is over.

In closing, I want to thank you again for attending our banquet and giving us such a swell talk. The things that you discussed were certainly what everyone needed.

Yours sincerely,

Dear John:

I have been intending to answer your two communications of April 8 and 9, and I have left them on my desk until I could find the time.

We formerly handled all of this publicity and mat stuff out of our office, but the publicity man wanted to handle it his way, and when we had Wayne Davidson here he did a swell job. Since he left there has been a little difficulty and we think we will go back to our original scheme.

We could have had that stuff to you pronto if we had handled it our own way, but we did not know of the difficulties that were encountered until you wrote. However, I believe that your calling our attention to this has resulted in our going back to our old scheme, so we thank you for showing us the break in the liaison.

Just a card to say that we all greatly enjoyed your splendid talk last Friday night at the Men's class banquet for the high school athletes. The kids especially enjoyed it and that was the big thing.

But I still think you should have some mats and a press agent to get some publicity to the papers where you speak. Red said he wrote for a cut or mat, or I would have written Fred Ellsworth.

TIMBER WOLF DIVISION

Dear "Doc"

Received your kind letter and appreciated your writing me very much. I appreciate the fact that I am getting "old" to be interested in athletics but you know how it is. It's in a fellows blood and ^{when} he has the "savvy" in a spot he likes to do the work. Hence my letter to you. Yes I'd be interested in a large high school job perhaps more so than a small college. If you know of one I probably would apply. I'm sure that I will be discharged shortly because of my physical condition. However that

TIMBER WOLF DIVISION

would not interfere with my coaching in civil life. Just not suited for a hard campaign in the South West Pacific.

The high school job is the better when considering the small college because the one can pay and the other cannot.

If you know of a vacancy I would appreciate your telling me of it. I wouldn't care to go to a small high school. If I did anything like that I'd work into the administrative end of the game. However right now I want a coaching job someplace.

Expressing my sincere regards & appreciation to you -

Dear C. S.:

I received a letter from Major B. L. Roberts, a graduate of Central Missouri State Teachers College, and I am sure, the University of Missouri. I know he is a University graduate, but I am not sure after leaving Warrensburg what University he attended. Major Roberts played football and basketball and competed in track for me while I was at Central Missouri State Teachers College. He had two brothers that were outstanding athletes at the University of Missouri. This was along about 1915-16.

Major Roberts writes me that a bad knee that he got in football is showing up and they do not consider him suited for a hard campaign in the Southwest Pacific. He has written me asking if I could line him up in a college coaching position. He has his pedagogy and other qualifications for a life teaching certificate, I am sure. I wrote him and told him I knew of no openings in college but there were a great many high school openings, I am sure, and I am writing to see if you would be interested in him. He is clean as a hound's tooth and a fine gentleman. He would make a great coach, as well as a great example for young men.

I am trying to aid him in any way that I can in this rehabilitation work. Won't you write me and frankly tell me what the chances are for a man with these unusual qualifications? He is now located at Colorado Springs, and would be interested in something for next fall.

With all good wishes, I am

Major B. L. Roberts, O-135036,
Prisoner of War Camp,
Camp Carson, Colorado.

Dear Major Les:

You know you may always count on my helping you in any way that you should ask me. There will be a lot of jobs open, Les, but at the present time many of the colleges have such a small enrollment in students that the kind of a job that you want is not wide open at present.

Certainly there are a lot of important high school jobs that pay exceptional money, but the college jobs are few and far between because of the low enrollment. At the University here, Henry Shank and Elmer Schaake, two Kansas football stars, are coaching the varsity football team. Ray Kanehl, a varsity track man and formerly head of the Physical Education department at Wichita East High, is coaching track. All of these men are doubling in Physical Education, and I have the basketball, so our staff is pretty well filled.

The University of Missouri is running on a reduced staff, with Chauncey Simpson the head football coach, assisted by another Missouri man whose name has slipped me for the moment. Tom Botts is track coach, and George Edwards is basketball coach. "Stan" Stankowski is the intramural man, so Missouri is in about the same fix we are.

The small colleges just haven't the personnel and they are coasting along. Would you be interested in a large high school job?

By the way, Colorado Aggies are to be open for a man, assistant in football and basketball, but I think that is after the war. Harry Hughes is the athletic director there.

What I fear, Les, is that most of these schools when they go out to hire a man will want a fellow who has been identified recently with successful coaching jobs. I know that you could do a swell job, but it is getting these fellows sold on the thing that is the most important consideration at present. Won't you write me at length and let me know your reactions? You can count on my helping you in every possible way.

With all good wishes, I am

Sincerely yours,

Dear "Doc":

I wonder if you would be kind enough to be of help to me.

I have been declared "Limited Service" due to my left knee. They state that it would hinder my efforts and consequently I can't be sent overseas. When such a decision was made I was placed in such a position that I can ask for my release from the army. I intend doing so if I can find suitable employment. Do you know of a coaching position that is available that I could secure? I can handle

When I returned to my office after several days out searching for teachers I found your excellent letter concerning Major B. L. Roberts. Your interest in the Kansas City problem is indeed appreciated and since it is very probable that we will have at least one and possibly two vacancies in the physical education department we shall gladly contact Mr. Roberts if you will give us his address. Thinking that it might be helpful for you to contact him, an application blank is enclosed. We hope to hear from Mr. Roberts and we are always glad to hear from you.

If there are other physical education majors at the University of Kansas or elsewhere that you are willing to recommend we shall be happy to send applications to you for them or write to them directly if you furnish us their addresses. You know, I believe, that teachers entering the secondary schools of this system must have completed the requirements for a Master's degree.

Mr. W. W. Fuller and I were talking last night of K.U. men in service and he told me of your publication "The Jayhawker Rebound." I have two brothers, both K.U. If you can handle their names on your mailing list, we all would appreciate it very much. I will be glad to pay any fee, if there is one. I think this is a wonderful idea. Mr. Fuller told me that although he did not know any of the men whose letters you reprint yet he reads each publication avidly and enjoys them very much.

My brother Howard was graduated from K.U. in 1940, and then had one year in the law school there before enlisting in the navy. He took V-7 training at Northwestern, graduating in October, 1942, and except for a leave in the summer of 1943, when he had a visit at our home in Dodge City, he has been in the South Pacific. Charles entered K.U. in the fall of 1941, went to Oberlin College in the summer of 1943 under the V-12 program, and finished his navy preparation at Columbia University, graduating from V-7 training last June. He went overseas immediately, and is now somewhere in the Phillipines. Both boys are very loyal to K.U. and would very much enjoy hearing about K.U. men.

It certainly is very interesting, and I agree with you that this makes it appear a much closer race than the old method of games won and games lost.

People are so conservative about starting something new that they are hesitant to make any changes. I am going to show this to a Kansan reporter and ask him if he will not call upon you to have you elaborate on your method.

Dear Dr. Allen: -

In reading the basket ball scores I notice that in points won compared to ^{total} points in the games ^{played}, the scores would run somewhat differently and more nearly were, thus:

Team	Total points in games played	Points won,	%
Iowa	851	469	55.1 %
Kansas	835	448	53.8
Oklahoma	832	420	50.5
Kansas State	893	445	49.8
Nebraska	956	447	46.7
Mo.	845	377	44.6

I wonder if it would help the general good feeling if some one of the leading team coaches were to call attention to the percent scores as indicated above?

Nebraska made 46.7% of the scores in the games played, a far better showing than in games won.

I can understand a fellow like you, but cannot understand some of those guys that used to sit in with us, - and further than that, I might add that I am not interested in trying to figure them out. I have my own ideas, and they are pretty definite.

Floyd, these fouls were on the Kansas team and not on the opponents. George wrote me saying that he wanted the number of fouls that we made in 1944 and in 1945 to make a comparison. It would not be possible for me to have their season's record, so only by asking each team to submit their total records would any accuracy be gained. These fouls are for Kansas only.

My dear Phog:

Thanks for your good letter of March 17th and the comments appended thereto.

Personally I have missed you very much from the rules committee because you always had a stimulating viewpoint and yet were willing to give and take when it was necessary to do so to keep harmony on the committee. I rather think that this will be my last year on the rules committee as I have a number of times reached the point where I thought things were done to keep somebody good natured rather than because logic dictated the action.

I would like to raise a question about fouls since I am not sure that we understand each other. Your list says that you played 23 games in 1944 with 12.78 fouls per game and 17 games in 1945 with 16 fouls per game.

The thing I am not certain about is whether or not fouls per game are for the University of Kansas or for both teams. The reason I am raising the question is that such returns as I have indicate that thirteen and sixteen fouls per game for both teams is very very low and I am therefore raising the question. Will you kindly write me upon receipt of this letter using the enclosed air mail envelope so that I can get the figures correct.

The figures are quite enlightening and yet I dare say the rules committee will pay no attention to them. I have reports on over 150 college games and on over 1,000 high school games and the figures all show an increase in fouls in 1945 over 1944. I haven't yet applied statistical methods to the figures but I am certain that when I do it will indicate that the increase is not only an apparent increase but a real increase and therefore the committee will have to accept the responsibility for making the game a rougher one by increasing from four to five fouls.

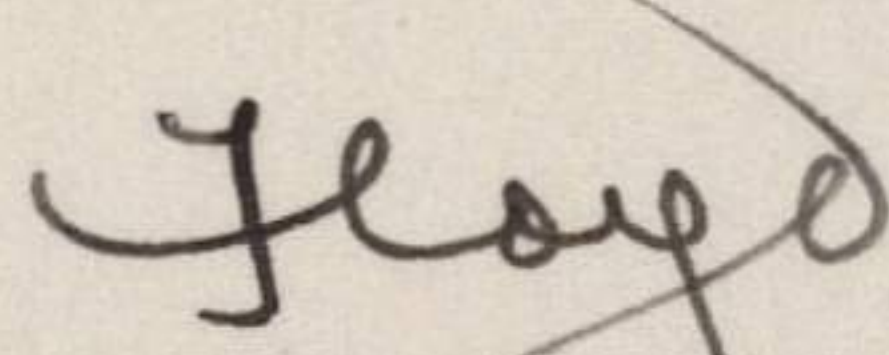

However, my best guess is that the committee will refuse to reduce the number from five to four because to do so would mean that a number of coaches would be forced to do a little more coaching in regard to some of the finer points of the game and maybe take out some of the slam bang tactics that they now employ.

Dr. Forreest C. Allen
