

university class football, basketball
or track. I have quite an imposing
record of success in all three
so you can go the whole way
if you have such a position that
you know of that you haven't
some one else to recommend.

I'd like to hear from you anyway
perhaps a little advice from you
would be in order.

I think that you remember
the time I was injured in the
knee. It was in our game
with Haskell at Kansas City.
Strange it should wait this
long to show up isn't it. But
I guess 'agi' is the answer.

Regards to your family and
also yourself.

Sincerely
