

March 13, 1944.

Mr. Harold L. Reade, Coach,  
Shawnee-Mission High School,  
Merriam, Kansas.

Dear Harold:

Dr. Bert Nash sent me a memorandum that you wanted information on the work necessary to complete requirements for your Master's degree.

I obtained the following information from the Graduate Office this afternoon: You have done a total of 24 hours toward the degree, 10 in Education and 14 in Physical Education, which leaves 6 hours yet to be completed. You have no credit for thesis as yet.

Since you began your graduate work in the summer of 1938, it will be necessary for you to complete it in the summer of 1944 to keep within the time limit of six years.

I trust this gives you the information you desire.

Cordially yours,

Director of Physical Education,  
Varsity Basketball Coach.
