

School - It was tough and
is yet - but I find that
comparative clean living
in the 1st 38¹/₂ years of my
life made it possible
to carry on, on a par &
often better than men
in the early 20's - I feel
those young men at K. U.
that - Clean, hard, living
will pull them thro' - and
Kansas University is
a place open for just
that if the men will
take advantage of it -
One doesn't know
how wonderful &
beautiful free living
