

it will be a time of joy
and happiness unequalled
in the history of man -
The University's future will be
of such a great & grand nature
that right now we can hardly
dream of its bounds - I look
forward to great Physical Education
Programs & a liberal Intercollegiate
Competition -

I look also to safer and
more substantial living
and greater home ties among
our people, and consequently
happier communities -

I am sure that your
Rotary work is of endless
value at this time when the
foundations of our society are
shaken - Keep up the fight.

Sincerely

Beel
