

July 19, 1943.

Mr. Willard B. Rogers,
Attorney,
New England Bldg.,
Topeka, Kansas.

Dear Willard:

I have failed to acknowledge receipt of your splendid article, "Nature Lovers are Thinkers", which appeared in *Hunting and Fishing* as of April, 1943.

I laid it on my desk with an idea in mind of not discarding it until I read it. I think you have done a fine job in setting out the splendid educational advantage of early childhood by emphasizing nature's ways. I congratulate you and want you to know I enjoyed reading the article.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
