Director of Physical Education for Men  
University of Kansas  
Lawrence, Kansas

Dear Sir:

As a graduate student in the Department of Health and Physical Education at the Texas State College for Women in Denton, Texas, I am making a thesis study entitled "A Syllabus for the Teaching of Dance to Men Major Students in the Health and Physical Education Department of the Louisiana State Normal College". This is, as you notice, a study for one specific teacher education institution; however, after experimentation and revision, I believe that the study will be of real benefit to men major students in other colleges and universities as well as to teachers in professional service.

Because of the nature of the study, the investigator is gathering points of view from the elementary, high school, and college levels. You have been recommended as an authority in the field of health, physical education, and recreation whose point of view as to the attitudes, policies, and needs of men major students would be most helpful and highly valued.

For the purpose of gathering these viewpoints of authorities on the three levels of education, I have prepared the enclosed check list which, I believe, you will find so arranged as to require a minimum of your time in giving the information requested. Your cooperation in completing this check list is solicited and your prompt attention to this matter will be of further assistance to the investigator. For your convenience, I am enclosing a stamped, self-addressed envelope.

Please know that your time and effort are greatly appreciated.

Sincerely,

*Palma Robinson*
