Mr. Floyd A. Rowe, Principal,

Dear Floyd:

I enjoyed reading your letter of May 19th and I could deeply appreciate your feeling. I know what it must mean to a father to visit with a son who doubtless is going on a long trek and a dangerous one.

I have two sons and both, of course, are liable to the same call that your son is. However, my youngest son, Bobby, has just completed his freshman medical year at the University of Pennsylvania. He comes home in about a week and then will return in three weeks to start on his sophomore year this summer. Of course, that delay may keep him from being placed in the critical position that your son is being placed in at present.

I, too, know that many young men will never return from foreign service, and I have exactly the same mind that you have.

I am sending you a copy of a letter that I wrote Val Lentz last year when he wrote me asking about the fan shaped backboard. You can see that I called his hand at that time in that they are working to no good end. I am also sending you a copy of a letter that I wrote Nels Norgren when he asked me to reconsider my resignation as chairman of the rules committee of the National Basketball Coaches Association. I am not much interested any more in the machinations of these petty politicians. There are so many more bigger and greater things that I cannot be bothered.

Good luck to you, Floyd.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.

Dear Adolph:

In reply to your inquiry of May 19th concerning the floor dressing we use on our basketball court, I beg to state that we use a dressing made by the Vesta Chemical Company, of St. Louis. This is applied by our Department of Buildings and Grounds, and is not taken care of by the Athletic Association.

Seal-O-San is a very good floor dressing, but since the care of the floor is entirely in the hands of our Department of Buildings and Grounds, they naturally select the floor dressing.

Very sincerely yours,

Dear Coach:

Our State Finance Commissioner has requested that I write to you in regard to the floor dressing that you use on your basketball floor.

Do you use Seal-O-San? If so, why? If you do not use it, what preparation do you use and how much per gallon do you pay for it? Do you find it more satisfactory than Seal-O-San?

I would appreciate an immediate answer as the Commissioner seems anxious to have this information.

Dear Governor Ratner:

We received a fine letter from Teno this morning saying you were coming to the game on Saturday when we play Kansas State.

We are going to take movies of the game, and we are very desirous of taking a pre-game picture of the Governor, the Chancellor, Mr. Quigley, the referee, and the two captains. This film will be used over the state, and should be very popular because it will represent both schools.

The game starts at 7:30, and we would appreciate it very much if you could get here about 15 minutes before the game for this picture. We did not make final arrangements for the movies until yesterday, hence we did not write you sooner. But we do want you here, and if you can arrive a few minutes early we shall greatly appreciate it.

Dear Teno:

Well, Teno, I am pretty fine, but Denver University scared the daylights out of me. With 38 seconds to go we were one point behind, and if Charlie Black had not taken the ball away from a Denver man and dribbled down the court to score we would have lost.

Teno, do not build the K. U. team up too fast. We have got a lot of fine players but they are all young, and since we have lost Engleman, Kline and Bob Allen we are going to have a difficult time of replacing them. However, I appreciate your confidence in us and we will do everything we can to justify it.

I am glad that you are going to put Sam Hurst in your story, and I am wondering if you are not going to be in it yourself. I would like to have you on my team when you grow up. Certainly, I want a copy of your story.

By the way of telling everybody on the team hello for you I am posting your letter on the varsity basketball bulletin board so when you come to see us play all the boys will know of your good wishes to them.

I trust that you and your family are all well. Give my kindest regards to each and every one of them.

Dear Governor Payne,

I am happy indeed to send you a mimeographed copy of our basketball schedule for this winter. We do not have our printed schedules as yet, and if and when we do I will send you a supply of them. I consider this a great compliment to our basketball team in that you have asked for our dates. We appreciate it very much.

I noticed in the paper this morning that you will be down for the Kansas State game. I know how busy you will be so we will just say "hello" to you at a distance. Our very best to Mrs. Ratner and your three fine kiddies.

By the way, our Varsity and Freshmen are playing a game at 8:15 Friday night, Nov. 21. This is a part of the Homecoming festivities and if you want to see a real bang-up game and should happen to be down for the Homecoming we will be happy to have you. Tell Mrs. Ratner and the children that this will be a good ball game because Mit Allen is coaching the Freshmen and he says he is going to beat the old gent. I thought perhaps the family might be down for some part of the festivities and if they were we would be happy to have you.

Anyhow, we will open up against the University of Oklahoma on Jan. 6 in our conference games and we will try to make Mr. Tucker sorry that he went to Oklahoma. Of course our first game at home is with Denber University on December 17, so we will be looking for you.

OFFICE OF THE PRINCIPAL

May

Mr. Forrest C. Allen, Director

University of Kansas
Lawrence, Kansas

My dear Phog:

Your letter of May 12 is at hand in which you promote me to assistant superintendent of Cleveland public schools. Thanks for the fine promotion. However, I have not been officially notified of it yet and I am only the principal of Collinwood High School to date.

T copy
The copy of your letter addressed Gwinn Henry and signed by George Edwards, dated April 5, and your reply of May 8 constitute very interesting reading. I am particularly interested in the last paragraph of this letter to Edwards which I quote for you simply to save you the trouble of looking it up. "Undoubtedly the N.C.A.A. executive committee has killed the N.C.A.A. tournament by grabbing everything within sight. The N.C.A.A. basketball committee has also done irreparable harm by their administrative supinity and rules-concocting at the meeting in New Orleans. There are more politicians on the committee than there are men of vision. One year they put the high school federation in power to meet the ends of their own purposes, and the next year they make them the goat endeavoring to please a few eastern coaches."

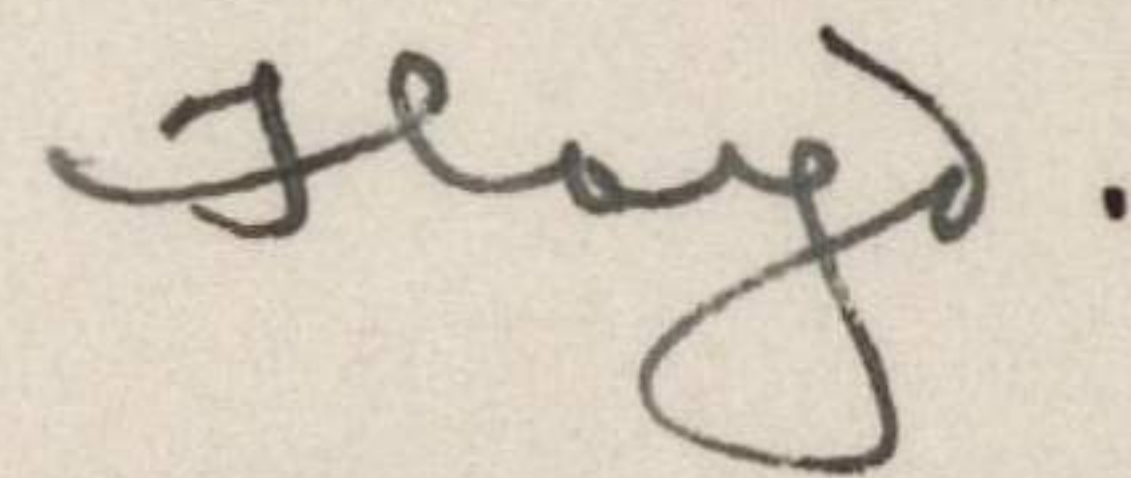

It is needless for me to comment further than that upon the situation other than to say that it was my own decision not to be a candidate for chairmanship of the Rules Committee again this year. I have felt, ever since my elevation to that position that to have both Porter and myself officers of the committee gave too much weight to the high school representation. While I believe that the sniping that was going on was directed at Porter rather than at myself, I feel that Porter's services on the committee were more valuable than my own and, therefore, voluntarily withdrew. Getting into my present work, I find that there are other things which appear to me to be far more important than basketball rules legislation and, therefore, am glad to withdraw as an officer of the association. If my present feeling continues, I shall ask the National Federation not to reappoint me as a representative on the Rules Committee. This may be due to a reaction which is simply a concomitant of the times. In other words, during my stay in New Orleans I had an opportunity to visit with my son who is a lieutenant in the Medical Corps at Camp Shelby. I was impressed with the possibility of his being sent to foreign service and to the fact that he might never return. In addition I could not help but multiply that feeling by the hundreds and thousands of young men who will never return, and with this in mind, the whole set up from the machinations of the National Basketball College ^{Coaches} Committee to the petty politics of the Rules Committee itself which I have enjoyed immensely over the past year seemed so inconsequential and played so small a part in the desparate situation in which we now find ourselves that it required about all the self-control that I had, on a number of occasions, to

58

keep from castigating the individuals who were so earnestly engrossed in the basketball question, as to whether a molded type ball or a sewn type should be official, or whether a fan shaped back stop or a rectangular back stop was all important. As I say my mental attitude was probably so conditioned that it was impossible for me to see the importance of the basketball meeting. As a matter of fact, prior to it I tried to get it cancelled. I still feel it should have been cancelled and the time and energy of the men who went there and organized all these inconsequential matters could have been much better spent.

Thanks, Phog, for letting me blow off a little steam to you. Trusting that our paths may cross in the not too far distant future, I am

Very sincerely yours,

Mr. Otto Rost,
6200 Oleatha St.,
St. Louis, Mo.

Dear Otto:

I am sending you a copy of a letter that I received from Kenneth Wulfemeyer, and also a copy of my reply to him. Had the boy come to me and told me that he was expecting me to pay his fee I would, of course, have told him that basketball has never received a penny for such a fund. They do it for football players here, maybe, I don't know, but I have heard that. But never one penny has gone toward tuition or books for a basketball player.

We are starting a compulsory physical education program here and I remember that you told me Kenneth had worked for you on the playground, and if he is a good swimmer, as I think he is, I am sure that we would have no difficulty in lining up work for him at 50¢ an hour. We could doubtless use him three hours a day in a pinch and that would make him about \$150 a year.

I do not know whether you would care to do anything for him at the Delta Tau Delta house the way you did previously, or not, or whether you could do it. He states he has a hundred dollars. I believe that we could see him through in the way of work, and I believe that with everybody working together we could do something for this boy. Just because he was too timid to face the whole situation is no reason why we should not help him. However, the fact that he failed in his work at Washington does not make his case too good here because they would put him on probation and it would be necessary for him to make a "C" average in his classes.

There is one thing, Otto, that many boys do that is frowned upon by all universities, and that is to send in high school transcripts only to the University. This is considered by the University unfair dealing, but many boys do it rather than to face the probationary requirements when they have failed in other schools. Doubtless you remember when you were in the fraternity that perhaps some of the boys might have practiced that procedure heretofore.

I would be glad to have you write me what you think regarding Kenneth's future. I want to help him help himself, and I want your guidance.

By the way, Ensign Johnny Burge was in yesterday with his wings, and he looked like a million dollars. He told me that when he was in St. Louis he saw you and that you were being reassigned to McKinley High School. I imagine that you like the coaching work very much better than the administrative work, do you not, Otto? The administrative work is desirable from some standpoints, but nothing takes the place of contact with these young fellows.

Please give my kindest regards to Mrs. Rost, and I am hoping that you and your family are all well.

With best personal regards, I am

Very sincerely yours,

Dear Friend Reboledo:

I greatly appreciate your kind letter written on October 24th, and regret that I have been unable to reply sooner.

I am glad to know of the progress of Goal-Hi.

We are in the midst of preparations for our winter basketball season here. I am sending you a copy of our schedule. You will see that our opening game is to be played next week, December 17th, with Denver University.

In reply to your inquiry about courses for basketball coaches, I presume you are referring to what we call "coaching schools" or "coaching clinics", usually held during the summer. Last summer I was one of the faculty members at the Iowa Coaching School and Officials' Clinic, and I am enclosing a copy of their program. Most of these coaching schools are conducted on a similar basis, and I thought this program would be helpful to you in making your plans.

If I can be of further help to you it will be a great pleasure.

My highly esteemed Dr. Allen:

With real pleasure I prepare to reply to your very amiable letter of July 31, being truly regretful of the fact that I have not done so before due to series of events which have taken my time and attention.

The advancement of "GOAL-HI" here is proceeding slowly but surely. The great popularity of basketball constitutes in a certain way a hinderance, but you will be delighted to know that in spite of the fact that I can not (advance) *push* it as much as I should like, still matches and games are taking place. The National Committee of Physical Education, an organization which directs the sports of the country, will soon take up the matter of making the game official; and the School of Fencing and Physical Culture of the Army is at this moment considering its being included in the program of physical education of the Army. Very soon I hope to give you good news in ^{regard} reply to this. A week ago I sent to an important institution in Argentina, "la Fundación Ateneo de la Juventud" the material which you so kindly sent me and I am in hopes of receiving a favorable reply from the directors of this organization, Mr. Frederick Dickens. For some time I have been corresponding with my friends in Chile, Peru, Paraguay and Brazil but in my next correspondence I shall suggest names and addresses of persons who may cooperate if you are interested in so doing.

In regard to your trip to South America permit me to be so indiscreet as to be doubtful about it though I greatly desire it; perhaps when my son Héctor Raul is a coach you may come to these shores. . . today he is three months old.

Finally I beg you to be so kind as to send me if it isn't too much trouble, information regarding courses for coaches of basketball which are carried on in the United States and in which I understand that you take an active part, for I plan to organize here soon a similar course. I shall be extremely grateful.

Not wishing to trouble you further, with my affectionate greetings to your distinguished family, I ask you to receive the expressions of my highest consideration and esteem,

S.S.S

Mi estimado Doctor Allen:

Con verdadero placer me dispongo a dar respuesta a su muy amable carta de Julio 31, lamentando de veras no haberlo hecho antes a raíz de una serie de acontecimientos que me han distraído mucho tiempo y atención.-

El Goal-Hi camina aquí despacio pero seguro. La enorme popularidad del basketball constituye en cierto modo un inconveniente, pero a usted le resultará grato constatar que a pesar de que yo no puedo empeñarme todo lo que desearía, ya se realizan campeonatos. La Comisión Nacional de Educación Física, ministerio que dirige los deportes en el país se interesará próximamente por la oficialización del juego, y la Escuela de Esgrima y Cultura Física del Ejército está estudiando en estos momentos su inclusión en el programa de educación física del ejército. Muy pronto espero darle buenas noticias al respecto.- Hace ocho días envié a una gran institución argentina, la Fundación Ateneo de la Juventud, material del que usted tuvo la gentileza de remitirme y estoy en espera de la opinión del director de dicha entidad, Mr. Frederick Dickens.- Hace cierto tiempo que no mantengo correspondencia con mis amigos de Chile, Perú, Paraguay y Brasil, pero en mi próxima correspondencia le indicaré algunos nombres y direcciones de personas que pueden colaborar, si usted tiene interés en ello.-

Respecto de su viaje a Sud América, permítame la indiscreción de ponerlo en duda, pero lo deseo fervientemente; quizás cuando mi hijo Héctor Raul sea entrenador usted llegue a estas playas... hoy cumple tres meses de edad.-

Por último le solicito tenga a bien enviarme si no ^{es} molesto para usted información respecto a los cursos para entrenadores de basquetbol que se realiza en Estados Unidos y en los que, según tengo entendido usted participa, pues pienso organizar aquí en breve un curso similar. Le quedaré sumamente agradecido.-

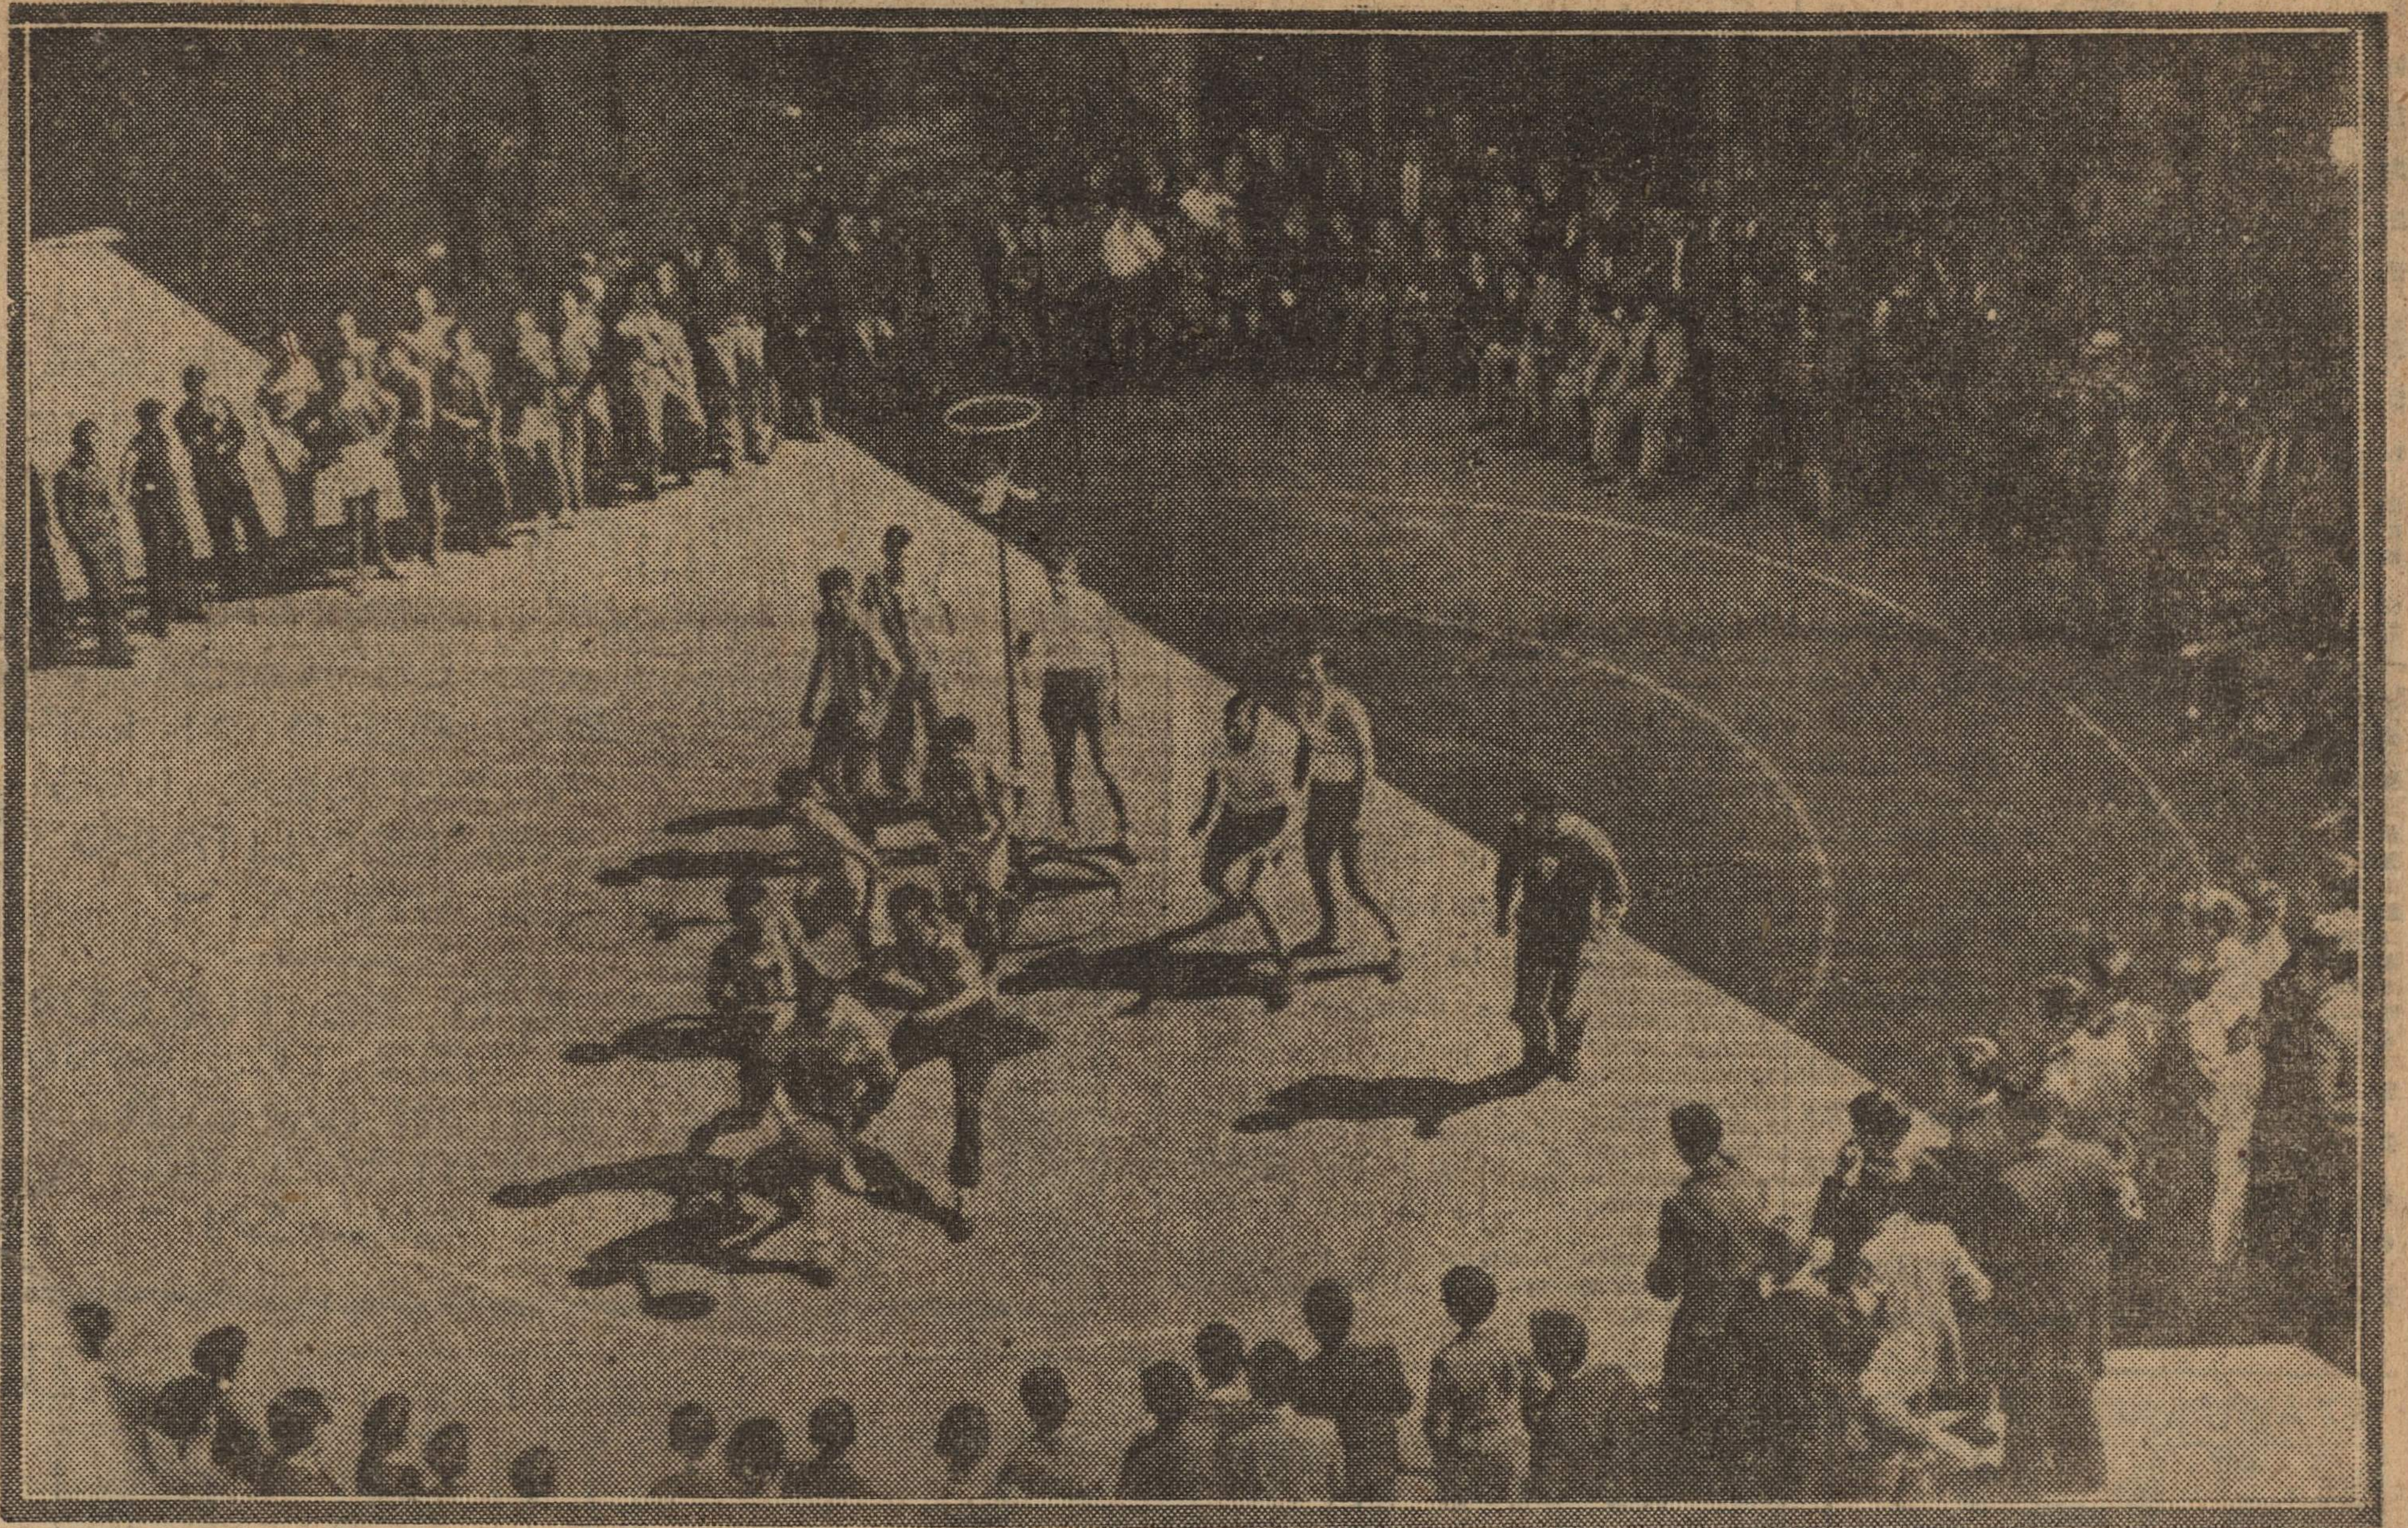

Deseando no molestar más su atención, con mis afectuosos saludos a su distinguida familia, reciba las expresiones de mi más alta consideración y estima,
