

December 29, 1939.

Dr. R. L. Canuteson,
Director, Health Service,
University of Kansas.

Dear Dr. Canuteson:

Thank you very much for your letter of the 14th instant enclosing your findings of your examination of the basketball team.

We feel very happy about the fine service that we get at your hospital and we are deeply grateful. It makes a coach much more confident when he is working with men to know that the boys have been checked and double-checked by competent authorities.

Thanking you again for sending this very vital information to me, I am

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
