

July 10, 1941.

Hon. Clyde M. Reed, Jr.,  
United States Senate,  
Washington, D. C.

Dear Senator Reed:

This is a belated acknowledgment of your kind note received after our trip East last winter with the basketball team. We greatly enjoyed seeing Washington, and it was pleasant to have even a short visit with you.

Fred Ellsworth has sent me a communication from your office, calling particular attention to the competitive examinations in physical training. We are very glad to have this information for our students in physical education. One of our young women, Evelyn Herriman, has definitely started her training in the field of physical therapy.

With best wishes, I am

Sincerely yours,

Director of Physical Education & Recreation  
Varsity Basketball Coach.
