Dr. Forrest C. Allen
Varsity Basketball Coach
University of Kansas
Lawrence, Kansas

Dear Doctor Allen:

I was glad to get your letter with the information in regard to the Lang Foot and Arch Normalizer. I have had a letter from Mr. Lang saying that he would meet me in Atlanta during the Coaching School. I am glad to get this information from you as I am certain that you would not recommend it unless you found it of benefit to you in your work.

I had planned to write to you telling you that I have a baby boy. He arrived last Saturday. He has a slight rupture and we have waited to see how it will develop. Things are going along nicely with him and I believe that all will work out all right. Esther is getting along nicely. Thank you again for your fine letter.

Yours very sincerely,

A. F. Rupp
