Dear Phog:

You remember my statement that at some time a David met a Goliath and you questioned whether you had a David in your squad. It seems strange that sometimes we have very near to us persons with an unsuspected power or ability. I believe your son, Bob, can be credited with being a David from Kansas which slew the Goliath from California. Certainly hopes were dim when the California team presented itself for inspection.

Anyway, Mrs. Reid and I are happy with you in your victory.

Sincerely,

Tad
