EDUCATION AND ATHLETICS
GEO. L. RIDER, Director

February 17, 1939

Mr. Forrest C. Allen
Basketball Coach
University of Kansas
Lawrence, Kansas

Dear Mr. Allen:

We are going to employ a man in our department next year as head coach of basketball who can also serve as an assistant football coach and do some scouting for football. Ability as an end coach will perhaps fit in best so far as his football ability is concerned. He would also be expected to handle our freshman baseball in the spring and to teach basketball in our Physical Education Teacher Training program. I am interested in a man who will cooperate with other members of the staff as well as to fit into the policies of our Institution.

If you know of a man or men who you think capable and with experience who can fit into this kind of a picture, I will appreciate it very much if you will give me their names and addresses at your earliest convenience.

It is not improbable that the man we have substituting this season in basketball will receive the appointment, however, we are anxious to canvass the field in an effort to get the very best man available for the job.

Thanking you for any recommendations you may give me, and with kindest personal regards, I am

Yours sincerely,

Geo. L. Rider
Geo. L. Rider
Director of Athletics
