Dr. Forrest C. Allen,
801 Louisiana,
Lawrence,
Kansas.

Dear Doctor Allen:

Enclosed your receipt for five dollars (\$5.00) and your registration certificate. I am unable to find any record of you having attended a Post Graduate course or the State Convention of the Association. However as I have no ruling on a case like yours, I am assuming that as long as you are not in active practice you are not required to show evidence of having qualified with the required P.G. work, and issued the certificate.

We would like to have you attend some of our meetings and I believe that you would enjoy them.

The chairman of the Coaching Section of the State Teachers Association has asked me to prepare a paper to be presented before them at the November meeting in Topeka. Have you any literature or information that I might have that would help me in preparing this paper. If you haven't the desired information could you inform me where I might obtain same.

Sincerely yours,

Earl H. Reed
