LAWRENCE

OFFICE OF THE DEAN

December 2, 1940

To K. U. Members of the K. S. T. A.

My dear Colleague:

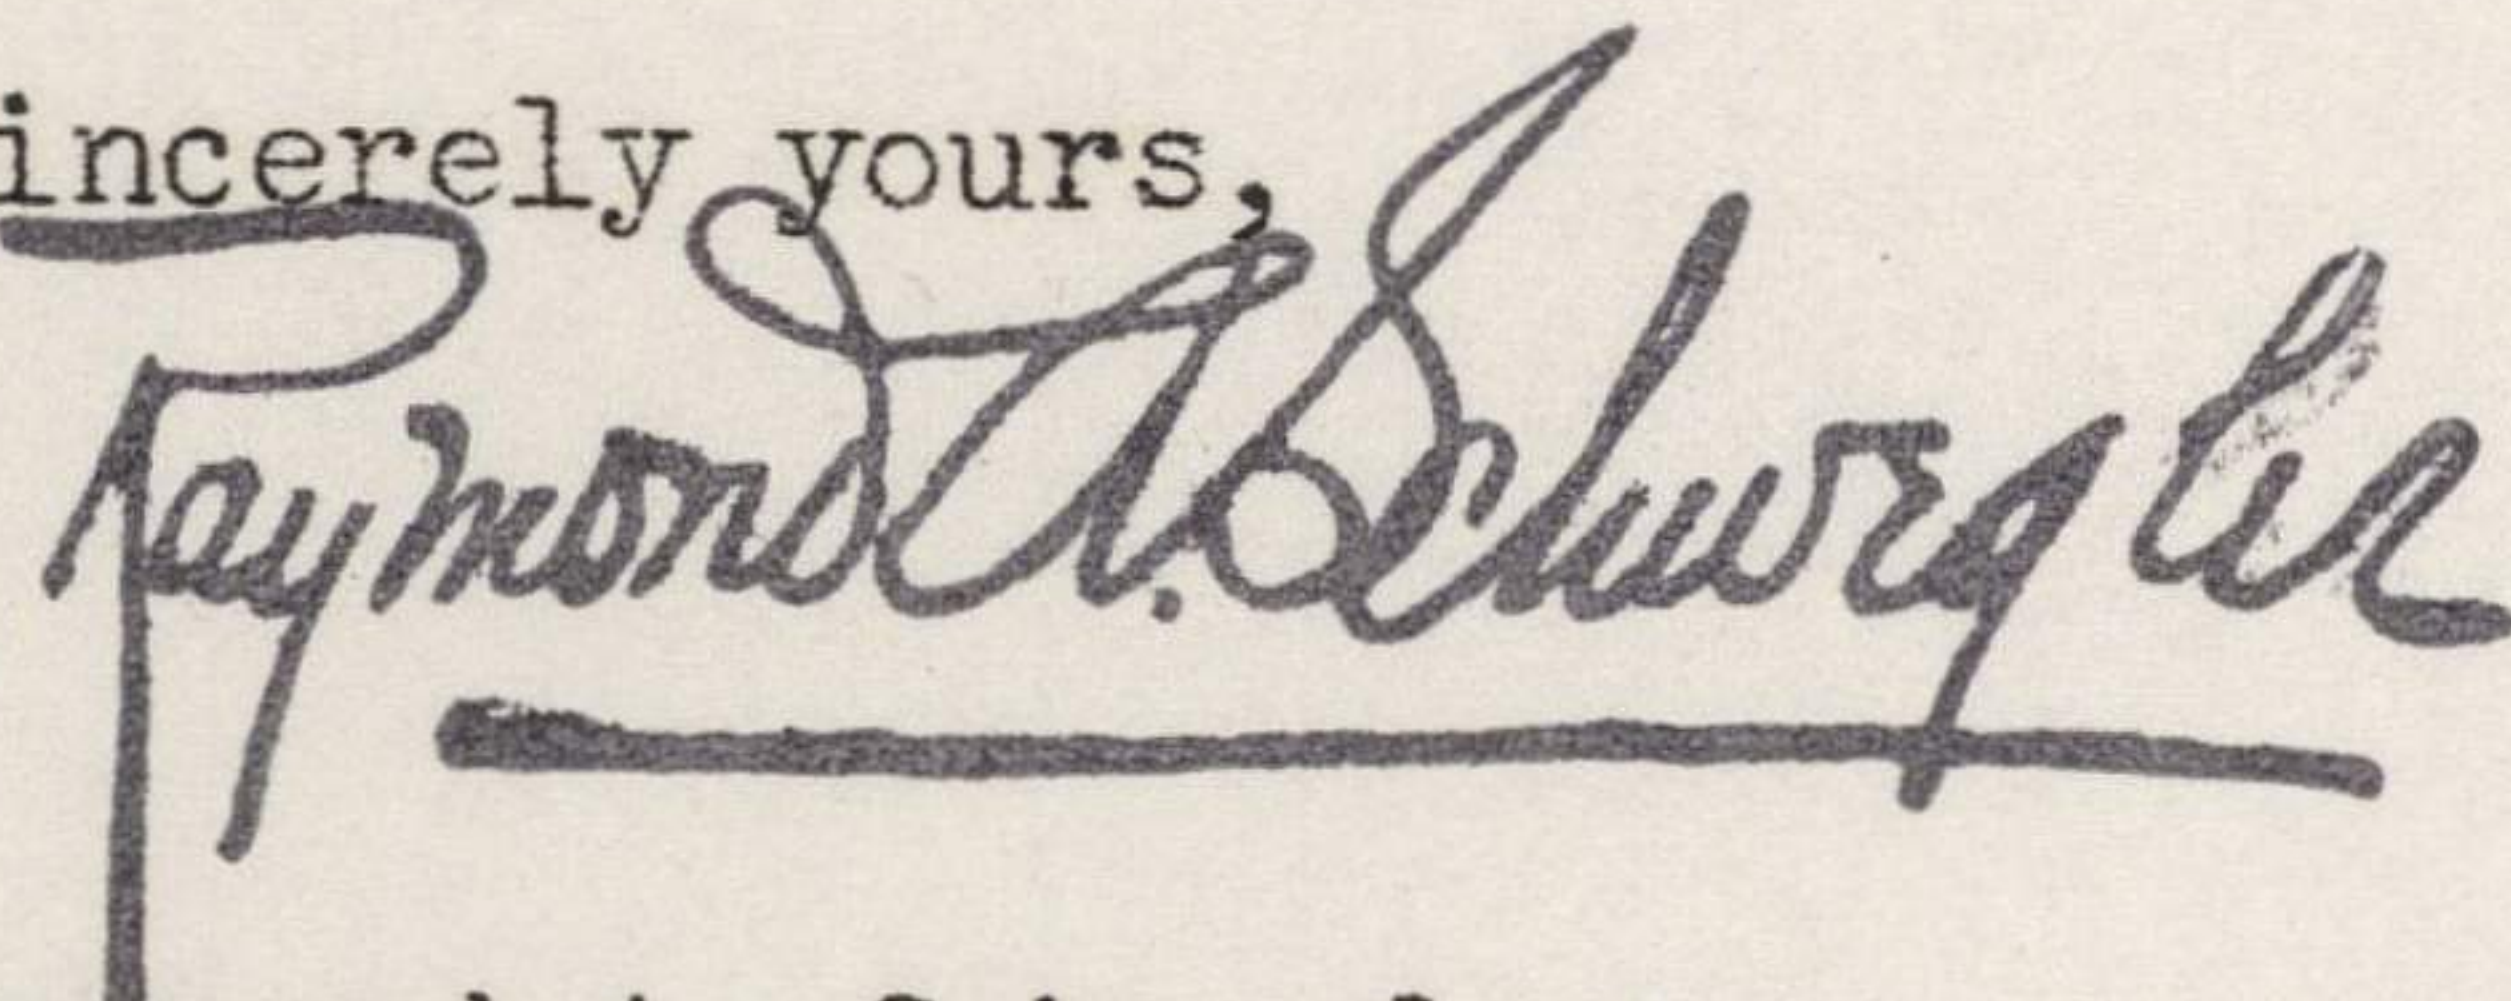

Copies of the proposed bills for the 1941 legislature on School Transportation, Free Textbooks, and School Retirement are enclosed.

These measures are the result of the work of the legislative committee of the Kansas State Teachers Association. The School Retirement and the School Transportation bills have been passed upon favorably by the Legislative Council.

We are calling these measures to your attention so that you will know what the teachers' association is doing and so that you will be able to exert your influence with a full awareness of what is proposed.

Your cooperation with the legislative program will be greatly appreciated.

Sincerely yours,
