Director of Athletics
University of Kansas
Lawrence, Kansas

Dear Sir:

We are revising our course in Methods of Physical Education. I would like to have an outline of the content of your methods course. If you will ask the person teaching this course to give me this information, I will greatly appreciate it.

I would also like to know the amount of credit given, the number of times the class meets each week, and whether or not it is a lecture course, an activity course, or part of both. If it is a lecture course, what text book is used?

If you are not in a position to give me this information, please give this letter to the proper authorities.

Sincerely yours,

Roy Stewart
