Dear Dr. Allen,

Since the fall semester at the University will begin in a few short weeks, I thought it might be wise to inquire as to the possibilities of working in the towel room again this year. I fully realize that there is a great demand for these jobs, but I hope you will give my application your consideration. If possible I would like an answer from you concerning this matter, because it is very important in my plans for the coming school year.

I would like to thank you again for the kind consideration you gave me last year.

Respectfully yours,  
Lawrence Stream
