Dear Doc:

I must send my congratulations to you & the team for the great season just closed. The radio made the recent play offs in Kansas City almost as good as the flesh. Dad & I did have to split our attention a week ago between your game with Southern Cal & the "Dutchman's" game out in Denver with the Nuggets. Both of those game were just right.

It was disappointing to me that I didn't get to see the team this year. But those responsibilities you promised us are creeping up on me. Don't think I'm kicking though; everyone has its compensation.

I refereed about 15 high school games around here this year. They give me a lot of entertainment. But - doc - the mistakes they make !! Time after time they take the ball off their defensive
