CORRECT FITTING CHART

Analyzes Your Game

NOW let's analyze your game—fill out the following questionnaire—it helps to understand your golf problems.

Your height _____ Weight _____ Age _____ Average Score _____

1. How long have you been playing golf? _____

2. Average distance of well-hit drives? _____

3. Distance from finger tips to floor while standing erect? _____

_____ This helps to determine correct length of your clubs. (See cut at left.)

(A)

(B)

(C)

4. Does your full back swing terminate (a) before your club reaches horizontal position _____, (b) about horizontal _____, or (c) somewhat beyond? _____

(Please check which)

5. When you take a comfortable stance with your driver what is the perpendicular distance from center of the tip of its shaft to floor? _____ With No. 5 iron? _____

This determines proper lie of club.

6. When driving do you tend to hit the ball too high in the air _____, about right _____, or too low? _____

7. Do you have a tendency to hook long shots _____, do they average about straight _____, or do you slice considerably? _____

See question 5.
