

high school or college. Both are native Kansans and know how to speak the Kansas language. Mano Stuksey is a graduate of the Hoisington High School.

Stuksey has been interested in the development of the finer side of young manhood and has done much work in the field of sociology. This summer he is to be recreational supervisor at a boys camp forty miles southwest of Denver. This camp is under the auspices of the Denver Community Center. Stuksey has done an excellent job of teaching in his practice teaching at Othead High School, and has also been called upon to assist and substitute for Mr. Allphin, one of our instructors in the department, at various times. We have great confidence in his ability to teach.

I also wish to point out that Stuksey has been an exceptional student in our department. For his major work he has above a "B" average, which is in itself a fine recommendation as to the manner that he attacks his problem. In addition to his knowledge and football ability, Stuksey is well qualified to coach high school or college basketball and track. I am very happy to recommend him without reservation or evasion. I have great confidence in Mano Stuksey, and if I were looking for a football coach I would certainly be delighted to obtain a man who possesses his exceptional knowledge as to football coaching technique. In addition, he is far more interested than the average coach in the durable values that should obtain in contacts between the coach and the boys with whom he works. Stuksey is a rare exception.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
