

September 17, 1931.

Honorable Wm. A. Smith,  
Justice, Kansas Supreme Court,  
Topeka, Kansas.

Dear Bill:

Your very good letter of the 16th instant received, and I was happy to hear from you.

I have passed your good letter on to my successor, Gwinn Henry, and I have also called your letter to the attention of Mr. Earl Falkenstien, who is the man who, after all, gets you those very fine seats. The bosses may have words to say, but Mr. Falkenstien is the man who places the tickets and designates the owner. I am quite sure that the office will do everything consistent with the best interests of all concerned.

You are very nice to say the things that you do. You will hear from the gentlemen regarding the Relays Club membership, and so forth. I think you are right in the conclusions that you have drawn.

By the way, Bill, I was just getting ready to write you concerning Major Cannady. I followed my assignment up with Major Cannady and find that Dean Lawson has gone over his credits and allowed him 15 hours for military, and further that he permitted the Major to make up 15 hours by special examination.

Yesterday I went over to speak to Dean Lawson regarding the possibility of him allowing the Major 4 hours for physical education, but the dean said that that would not be possible as he had already made all possible concessions that could be made at the present. I am writing Paul at Coffeyville.
