Dear Dan:

Well, it was swell of you, old fellow, to sit down and dictate a letter in the great rush of things as you undoubtedly found yourself in preparing to get away to Mexico City. I trust that you and the Mrs. will have a great time down there at this time of the year. It must be great.

The fact that you took time to write me is very much appreciated. After all, it is the thoughts of our friends that count the most, and I have always considered you one of my very staunchest friends and supporters.

With lots of good luck, Dan, and trusting that you are feeling like a million and making another million, I am

Sincerely yours,

Dear Phog:

Once again you have proven yourself the old master
in the game you love so well.

I am pretty darn busy this morning getting details
cleaned up so that Mrs. Servey and myself can get away
to Mexico City. I just can't leave, however, without
sending you these few words of congratulation.

We heard part of the game when we were driving
down to the Philharmonic Concert last night. Then I
got off into somebody's concert in C minor and got
lost. Then I went to the telephone later and called
the Star for the final results and what a thrill.

Again with my heartiest congratulations, I am

Dear Elmer:

Thanks for your good wishes concerning Oklahoma.
We still have two tough battles.

Congratulations on licking McPherson! Boy, you
really went to town.

Swede Carlson's name is John, and his address is

attorney for the Terminal Railroad. You are right - it would
be better to address him "John Carlson".

Lots of good luck to you, Dutchman. If I can help

Dear Doc:

It was good to see you beat Oklahoma, especially down there, and it looks like you at least have a tie for the championship. We beat the leaders of our conference, McPherson, the other night, so I feel these freshman are, after all, learning a little. I also feel pretty good now myself.

What is "Swede" Carlson's first name and is he an Attorney at the Union Station Terminal? I hated to use just the name "Swede", so thought I had better get that and the address right.

Walter Varnum said he would write me but I haven't received a letter from him as yet.

Take care and don't let your feet go out from under you this icy weather.

Hoping to hear from you soon, I remain

Sincerely,

Dear Snat:

Thanks for your letter and check which came this morning. I have given the check to Mr. Earl Falkenstien, the financial secretary of the Athletic Association, and the tickets will be held in your name at the box office in the front of the auditorium if you do not secure them at the Athletic Office before game time.

Since our victory over Oklahoma and Nebraska we have been swamped with orders for tickets for the Missouri game. I personally asked Mr. Falkenstien to get the best seats available for you, and I am sure he will do this.

Professor Russell just came in and we had a conference with Mr. Perdue, and we are going to use big steam shovels and two wagons, and are not planning to use any help of any kind outside of the operator of the steam shovel and drivers of the two wagons, which are county property.

So it looks like we will not have the job for you, after all, as we hoped. I am sorry, and I assure you before school opens there will be some work for the Physical Education Department for which we could use you a few days.

I am leaving tomorrow morning for Louisville for a few days, but I will be back in Lawrence in a week or so, and want you to keep in touch with me.

Mr. Bill Southern,

Dear Bill:

Pardon my delay in not answering your good letter of the 20th ultimo sooner. I have been out of the office much of late, and failed to answer it, but no doubt you received my five-page book on basketball. So you are probably just recovering from digesting that lengthy epistle.

I, too, Bill, am sorry that I did not get to say good-bye to you before you left, but we will be saying hello to each other before long, and we will be glad about that.

Engleman and Bob Allen took work in the summer school, and both did very well. I am sure that Engleman didn't get worse than a "B". Bob got a "B" in his chemistry, and he is glad he has that laboratory work out of the way.

All the boys seem to be happy that school is about to start again. Bob and I are leaving tomorrow for Louisville, where Mrs. Allen, Jane and Eleanor are visiting with my oldest daughter and her three children.

Bill, it is a little early to tell you about work, but I assure you we will put your name in the pot and do the best we can for you. I imagine that you are not a poor boy, - at least poor enough to get on CSEP. However, if you are, and if your grades average above a "C", I would suggest that you write to the CSEP Office for an application blank. It seems as if most all the boys got work this summer. I trust that you fared fairly well.

Lots of good luck to you, boy. We will be glad to see you. With all good wishes, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Dear Doc.

How are you this summer? I've been intending to write you for some time. I'm sorry I didn't get to say good bye to you, but when I was in to see you. You were gone. And I didn't get to come back.

Do you see Engleman very often. The last I heard he was going to summer school. I wished I was, but I've got to work so I can come up this fall & start in on the books again.

Dr Allan, I wonder if it
would be at all possible
for me to referee some
intramurals or to work in
the towel room. I'm going
to need some work to
get thru this year. I
would surely appreciate
it either of these could
be possible.

How's Bob? I imagine
he's working & playing

tell him "hello" for me.

Dr. I must close. See
you in the Fall

Mr. Leo Shannon,
Fairfax, South Dakota.

Dear Mr. Shannon:

I have asked Miss Dunkel what text she used in her course in Community Recreation this summer, and find that she referred quite often to "Theory of Play" by Mitchell and Mason, but did not actually use it as a text. She relied to a great extent on notes in lecturing to her class. She also gave them a great amount of practical work in connection with our summer playground program.

Miss Dunkel also referred to this publication by the National Recreation Association - "Normal Course in Play".

I am enclosing a little folder which I ran across, thinking you might find something of interest in it. If we can be of any help to you, it will be a pleasure to hear from you.

Dr. Allen and Miss Dunkel have developed quite a fine recreational program for the summer session students, and that has given us quite a bit to do. Howard Engleman is in school this summer, and is assisting us in the towel room, with the softball games, and also with the game equipment.

Dear Mr. Sbarbaro:

Some time in the very near future I trust that such an arrangement as you set forth in your letter of June 10th can be carried out.

It seems that these promotion games are coming in for quite a bit of criticism from our conference, and personally I would hesitate to go through with this arrangement unless our conference would give an O.K. to it.

We are expecting to make a trip down south during the Christmas holidays, and as we are limited to a certain number of games, this trip will preclude the possibility of our playing your school this year. However, I do want to thank you, and I trust that some time in the future we may get together.

Dear Dr. Allen:

Your letter of June 9th has been received and I regret to note that an objection exists which might prevent your participating in our basketball program. However, I am taking the liberty of pointing out to you the facts as they exist in the hope that the objection can be overcome.

These games are to be played at the 132nd Regiment Armory in the City of Chicago. This Armory has been used, and is being used by DePaul University as their home auditorium. They have played the University of Purdue at this Armory for the last two or three seasons, and they conduct all of their games there when their own auditorium can not accommodate the public. This situation does not exist in New York City in that the Madison Square Garden is never used by any of the participants as a home floor during the regular playing season.

I am hopeful that this distinction and the facts above related will enable you to overcome the prohibition, and I am awaiting your favorable response.

My dear Bill:

I fear that I have neglected answering your letter too long. It is undated, and I am not sure whether it arrived just about commencement time or not.

I regret to say that the out of state tuition fee is double that for the boys in residence here in Kansas, and I would hesitate to advise you to attempt the extra expense. I appreciate Mr. Baxter's enthusiasm, and I would indeed like to cooperate, but the matter of jobs is rather a scarce proposition. The Director of Athletics, Mr. Gwinn Henry, has discontinued all summer work at the stadium, which shows that even for the football boys the jobs are scarce.

I trust that you are settled on your choice of school, and that you will have splendid success in your quest for an education.

I am writing you in regard to the teaching and coaching vacancy at the Argentine High School.

Mr. Keith Stone,
Box 286,
Ellinwood, Kansas.

Dear Keith:

Your very good letter of the 29th ultimo has been received.

Personally, I do not see how you could hope to enter college with no funds or means of assistance except your experience and ability to work. I am sending you a carbon copy of a letter that I some times write to boys who expect the coach or athletic director to obtain jobs for them.

I have always stated that if a boy had \$100 or \$150 to pay his tuition, and enough to allow for a rainy day, that he could perhaps make it, but it is asking a good deal of people for a boy to expect that some one will take enough interest in him to see him through where the entire benefit redounds to the student. Every right-thinking man wants to help a boy help himself, but I do not know how you can start to school without funds, and expect to make it.

Perhaps you have not stated your whole case. Do you mean that you have no funds other than for tuition and books? Every student is forced to pay tuition, and unless your credit at your home bank or with some of the people who believe in you is worth \$100 or \$150, I would not advise you to attempt such a procedure, because the course is not for one year but for four and you would find yourself in more of a dilemma the second year than you would the first.

With all good wishes, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Dear Sir:

I wish to enter college this fall and have no funds or means of assistance except my experience and ability to work. My experience consists of three years of life saving work, and swimming pool up-keep. In Ellenwood High School I lettered three years in football and basketball, one year in track. My major in high school was romance. In college it is my desire to take Business Administration and Physical Education. I am 14 years old and 6 ft $1\frac{1}{2}$ inches tall, weight 167 pounds. I hold an Examiners qualification ^{under} ~~under~~ the Red Cross. My knowledge of swimming pool management is high above average.

Although the work of the swimming pool is my specialization, I am willing to work at any job equivalent to the financial needs of the college. I know my swimming ability to be high above average and have a selection of dives that would qualify me for any college meet.

Please advise whether or not it would be advantageous to make a trip to K.U. with returning students.
