

Our plans include To Dean Stockton

Supervised by
Geo M. Beal
C.S.E.P. Project Jim Beards

I Women's Building

II Grading Intramural Field

III Concrete Handball Courts to replace worn out wooden ones
Mrs Russell

IV Concrete ~~Handball~~ Tennis Courts

V Improvement and Maintenance of University Golf Course \$1800⁰⁰

VI Bowling on the Green. Lawn Bowls.

VII Reconditioning Pools

Mr Russell

VIII Replacing Potters Lake with a modern concrete swimming pool for university students

Mr Russell

IX Winter, ^{outdoor} skating rinks on intramural field

X 160 Acre Golf Course 1 mile from the University

XI Building ^a floor above the beams in the ~~large~~

Basketball court in Robinson Gymnasium thereby providing ^{many} additional teaching and research

rooms for our new Department of Phy. Ed. Skylights can easily be placed in the roof giving the necessary sunlight. A stairway can ^{readily} be built from the running tracks to the new floor level of the sky rooms.

At the same time

Mr. Bridle Potts

This new arrangement will in no way interfere with the necessary height of the present ceiling for basketball practice and for intramural game competition as now carried on. New lighting devices can then be installed thereby replacing the old dangerous and antiquated fixtures that now exist.
