and many more.

*"There are more things in heaven and earth than are dreamed of in  
your philosophy."*

—SHAKESPEARE

# PSYCHOLOGY and LAUGHTER

*Here is the "different" program of this or any season — and laughter is welcome, in these trying times. This brilliant Scandinavian psychologist uses Mental Telepathy, Mirth, and Mysticism, as tools to fashion an evening you will never forget. Designed for Relaxation, Education and Entertainment. Volunteers from the audience co-operate in individual experiments which range from the "nearly improbable to the absolutely impossible," and give people an insight into mental phenomena of the world of tomorrow.*

*HENRY GERALD lays no claim to the supernatural — his work is basically scientific in character — but his incandescent personality, his sincerity, his unusual psychic powers, his expert showmanship all seasoned with his happy humor insure an enthralling experience. It is something so different that any description must fall far short of reality, but hundreds of audiences — men and women — have attested that*

## Dr. HENRY GERALD

### *Is The Perfect Choice*

*for UNIVERSITIES, HIGH SCHOOLS, FORUMS, WOMEN'S CLUBS,  
CIVIC ORGANIZATIONS, CONVENTIONS, etc.*

**MANAGEMENT NOTE:** Henry Gerald will weave his spell of personal charm, psychology, and magic over your audience in the first five minutes of his program. The most sceptical will be converted, the most receptive gratified. We recommend to you unconditionally, Henry Gerald, the man of science, sorcery and mysticism.
