

September 22, 1943.

Mr. Glenn Charlton,
University Heights,
Lawrence, Kansas.

Dear Glenn:

We are missing you at Rotary and we are hoping that you can come back Monday.

Tildie Funk put in his first appearance after quite a tussle with sciatica and some toe trouble that confidentially he might describe as gout, but I won't say that. We asked Tildie to get on his feet and to describe to us the cause of his marvelous recovery. He told Rotary that being a member of the "purity league" and following its constitution and by-laws to the letter caused him to recuperate much more rapidly than if he had not been such a steadfast member of this organization.

Hope you can join us soon.

Rotarily yours,

FCA:AH

President.

P.S. By the way, if you ever fail in the insurance business, try the golf pro racket. From the improvement your wife is making I believe you could make some money.

F.C.A.
