

### Fellowship Thought

Those appearing on our programs often go to considerable trouble, often spending several hours in preparing their address. It only takes you a moment or two to thank him after the meeting. This makes the speaker think that his efforts have been appreciated, that perhaps his work has meant something to you and your club. He is due that courtesy.

The above paragraph was taken from *THE GATEWAY GEAR*, publication of the Rotary Club of Laredo, Texas; but it may do us no harm to think about this in our club.

### Team Work

The Rotary Club of Portales, New Mexico, divided the members into two teams, made a total of 462 contacts, and sold War Bonds to the value of \$130,830, while the members alone purchased \$25,825 worth of bonds. This club also sponsored the county drive, for over a half million dollars.

To VICTORY With  
WAR BONDS and STAMPS

### Over a MILLION Dollars

The Rotary Club of Minot, North Dakota, together with the local Kiwanis club, sponsored a War Bond Drive in which over a million dollars was raised.

### FERNANDO CARBAJAL, DIRECTOR, ROTARY INTERNATIONAL, 1943-44

Fernando Carbajal is vice-president of the Peruvian Telephone Company in Lima, Peru, director of the Industrial Bank of Peru, and vice-president of the Crandall Engineering Company of Boston, Massachusetts, U.S.A.

Mr. Carbajal was born in Lima, Peru. For two years, following his graduation from the Peruvian School of Engineering and Mining, he was an engineer on the construction of the Panama Canal.

In 1921 he organized the Rotary Club of Lima, Peru, and is a past president of that club. He

has been active in Rotary International as district governor, committee chairman and member, vice-president, and as president (in 1942-43). For 1943-44 he is serving as a director of Rotary International and as a member of the committee on participation of Rotarians in the post-war world.

During his year as Rotary president, Mr. Carbajal visited every country in the western hemisphere, and was decorated with high honors by the governments of Bolivia, Chile, Cuba, the Dominican Republic, and Peru. Boston University gave him the honorary degree of Doctor of Science because of his accomplishments in the field of international good will and understanding.

### Should We Complain?

Things are getting a bit tougher for us, but we should not complain. In Norway, for instance, they live on gray bread of mixed flour; poor margarine; cod's roe; occasional sardines; ersatz coffee, or tea substitute, with saccharine; one-fourth litre of milk per adult per day so devoid of fat as to be popularly called "doubly purified"; salt fish five or six times a week. (All fresh fish go to German troops.)

In a restaurant, to get a boiled potato, you have to hand in a raw one of equal size. Lemonade without sugar—made with crystal lozenges. Some workmen thought themselves lucky to have mustard on their bread.

Should we complain?

—THE ARC  
Adams, N. Y.

As we make strong units  
we make strong Rotary.

—President Charles L. Wheeler

### Work Pile Project

The Rotary Club of Black River Falls, Wisconsin, has initiated a Work Pile Project. The members of this club are now conducting a survey of work that can be done during the post-war period.
