Dear Mr. Lawrence,

Thank you for your very kind letter of the 1st instant. We are indeed honored and are very grateful for your offer of showing your films at one of our Rotary meetings.

We will let the matter slide for a while since you are going to be in another part of the country for several months, but upon your return we will try to arrange a date for you to come to Lawrence.

Thank you again for your gracious offer.

Sincerely,

Dear Dr. Allen:

I believe the last time I had the pleasure of visiting with you was driving from Stafford, where you had addressed the high school football banquet, to Hutchinson, where you were to make train connections.

Your letter is at hand regarding the presentation of the color movie "Behold South America" to your Rotary club, as referred to you by our mutual friend, Dolph Simons.

It is an honor indeed to have you propose a night meeting of your organization in order to view the film. And I shall be only be too glad to give the program to your club with the compliments of Dolph and Mr. W. C. Simons, who have been so considerate of me. However, I note that your calendar is filled until Christmas and that is the only time I have vacant space in the near future. I will be leaving for the west coast early in January to be gone for two or three months, showing the pictures there. As soon as it is definite when I will return to Kansas, I will get in touch with you, immediately attempt to arrange an engagement. <sup>and</sup>

Don't worry about the convenience. I should be glad to drive a long way to present the pictures to your organization with the compliments of the Simons.

Very truly yours

Paul R. Lawrence

Dear Mr. Lawrence,

As Program Chairman of the Lawrence Rotary Club, I wish to thank you for your very generous offer to show your color films of South America before our club.

Mr. Dolph Simons told me of your offer and of course both Mr. Simons and I think that they would be a fine thing for one of our programs.

However, Mr. Simons told me that the films required about an hour to be shown and we can devote only about thirty minutes for the program at our Rotary meetings since they are held at the lunch hour.

We would like to arrange a night meeting at some time when you could show the movies. Of course we want this date to be at some time when you are in this territory and when it would be convenient for you to be in Lawrence. At the present time our dates up until Christmas are filled, but we would like very much to arrange a time sometime this late winter or early spring when we could have you as our guest.

I would appreciate a reply from you at an early date.

Sincerely yours,

Director of Physical Education and Recreation

Dear Dolph,

Thank you so much for your suggestion about having Mr. Lawrence show his films of South America at the Rotary Club.

I have written to Mr. Lawrence and have explained that since we have only thirty minutes at the noon Rotary meetings which we can devote to the program that I hoped that we could arrange an evening meeting at some time in the near future when he could show his movies.

I of course want to have him at some time when he is in the Lawrence vicinity and have asked him whether or not he knows of such a time after Christmas. We have our programs taken care of from now until the holidays and immediately after as well.

I certainly appreciate your giving me this excellent suggestion and it would be great to see these films for which a fee of \$50.00 is usually charged. Thank you again, Dolph.

Dear Mr. Lawrence,

Mr. Dolph Simons has told me of your generous offer to show your colored films of South America at a meeting of our Rotary Club sometime in the near future.

The following dates are open: Jan. 5, 19, 26, Feb. 2, 23, Mar. 2, 9, 23, 30.

Of course, we would like for you to come as soon as possible but I am giving you the dates in March so that you may have one of them if it is impossible for you to be in Lawrence at an earlier time.

We most certainly are looking forward to having you with us.

Very cordially yours,

Dear Doctor Powell,

Fred Ellsworth has written me that on January 11, 12, and 13 there will be a joint meeting of the American Alumni Council of District 6 and the American College Publicity Association of District 8. He states that from all this group there should be someone who would be a first-class speaker for Rotary. He states that there's a possibility of getting Bob Hill, Alumni Director at the University of Missouri, who is a former international president of Rotary.

Under these conditions, since I offered you tentatively Jan. 12 and 19, I'm wondering if you would be willing to forgo the date of Jan. 12 and take the 19th for your international Rotary program. I would appreciate hearing from you at your earliest convenience.

Dear Dr. Powell:

Referring to our conversation of recent date, beg to state that we have held January 12 and 19 tentatively for one of your programs. We also have April 6 reserved if and when you desire to use it.

The dates other than these that we have open that you might fill in if you so desire - if you should care to use an earlier date than the first January date - are December 1, 15, 22, 29, January 5, 26, and February 2. I have tentatively arranged with some people for some of these dates, but none of them are taken at present. If you should care to use any of these won't you please have your secretary call me?

TO SMOKERS

Bad men would like their women to be like cigarettes,  
All waiting in a row, slender and slim,  
To be selected, set alight to, and when finished with just  
tossed aside . . . .  
More fastidious men prefer women to be like cigars -  
These are more exclusive, They last longer, and when the brand  
is good, they don't give them away.  
But nice men treat their wives like pipes -  
The older they get, the more attached they become to them.  
And when the flame is out - They may knock them, gently but  
lovingly, but they keep them safe in their pockets and  
NO MAN SHARES HIS PIPE! - - From the "London Rotarian"

## Rotary Overseas

In addition to having active representatives on all public welfare committees and institutions in the city, the Rotary Club of East London, South Africa gives much time to entertaining the men in active military service.

During recent years it has been the regular practice for the Rotary Club of Sydney, Australia to entertain the Consular Corps at an international luncheon, and on these occasions as many as 35 representatives of other nations have attended.

The Rotary Club of Foochow, China, contributed more than \$1,400 (Chinese currency) to charity during the year 1940.

Each year the Rotarians of New Plymouth, New Zealand conduct special functions in different country districts with the object of assisting farmers and building up better understanding between town and country.

More than 300 children in Wagga Wagga, Australia, have been taught to swim this year, free of charge, as the Rotary club continues its "Learn to Swim" campaign started some years ago.

Five-minute talks on persons and places of international importance are arranged for regular meetings of the Palmerston North, New Zealand, Rotary Club.

The Rotary Club of Colombo, Ceylon recently made plans to establish and operate a camp for 25 poor boys.

The local refugee-aid organization of Nice, France, was greatly assisted by the Rotary club in planning a Christmas party for hundreds of refugee children.

Rotarians of Göteborg, Sweden, recently pledged themselves to contribute 600 crowns (\$142) per month for six months for the support of orphans and needy children in Finland and Norway.

The Rotary Club of Nairobi, Kenya treats convalescent troops to frequent cinema shows.

## Meeting in the Mountains

At the spring conference of District 115 (part of New Mexico and part of Texas) Rotarians of the district were invited to participate in an intercity meeting to be held this summer in the Davis Mountains. The meeting is being sponsored by the Rotary Clubs of Alpine, Fort Stockton, Marfa, Monahans, and Van Horn, Texas.

At a similar meeting last summer, sponsored by the Rotary Clubs of Alpine and Marfa, 250 Rotarians were in attendance.

## Giving Proper Credit

Every once in a while we read a lecture on the matter of giving proper credit for stories printed in club publications. Quite naturally we begin to worry a bit for fear we have slighted some industrious editor.

Now along comes *Savannah Rotary*, bulletin of the Rotary Club of Savannah, Ga., which expresses a thought that should be copied by every club publication editor. Following our own advice, we print below this fine thought:

If we have ever had anything in our club publication, original or otherwise, that some other fellow wants to appropriate to his own purposes, he is at liberty to take it, revamp and re-make it, and pass it on to his readers as he may see fit. *Any gold coming from the Rotary mine is Rotary gold, and we can't imagine any Rotary miner is going to have it copyrighted.*

Ideas are like maple sap—you have to boil down about 35 gallons of them to get a quart of first class product.—*The Round Up*, El Paso, Tex.

### What Has Rotary Done?

Rotary has done many things to many men. It has touched the lives of thousands not members of a Rotary club. It has bridged individual differences, local cleavages, national antipathies.

It has provided an atmosphere of understanding and good will which has facilitated the handling of different problems, even in the field of international relations. So well have Rotary's achievements spoken for it, that in the space of a few short years Rotary clubs have been established in some 5,000 cities and towns in almost every corner of the world.

### What Can Rotary Do?

Rotary is young. It holds great promise for the future. What it can do has no limit less than the capacity of Rotarians of all races and climes to give practical expression to their ideal of thoughtfulness of and helpfulness to others—Service.—*Rotary Spotlight*, Brighton, Mich.

"I do not think that good attendance alone makes a good Rotarian, but I have never seen a good Rotarian who did not have good attendance."—*Rotary Fellow*, Brooklyn, N. Y.
