

program ran through each week beginning July 21 through September 15, just prior to the opening of the University. The following men spoke about the early incidents and the important happenings of their lives. I know of nothing that stimulated as much good will and interest in the club as this program has done. The personnel has changed over a period of years and we found some men not actually knowing much about the other fellow. This brought the whole membership up to date.

July 28 - Eugene Brune, George Hedrick, Karl Kloss

On September 22nd the film of the Denver convention was shown, and Neal Cherry and President John Andrews took over and made the event a memorable one.

On September 29th Captain Brigen of the Salvation Army obtained Colonel DeBevoise for the speaker. He was most interesting. He is a Frenchman who was born in Toronto and was converted there after a debauch of a week. He straightened up and is one of the outstanding men in the Salvation Army, besides being a talented speaker.

On October 6th the meeting of all meetings took place. President John Andrews, working with Hovey Hanna who is chairman of the Rotary Ann meeting, provided for one of the most colorful settings for this fine party which was held at the Crystal Room of the Eldridge Hotel. Michael D. Kononis, Greek consul and attorney at law in Kansas City, delighted the Rotary Ann and the Rotarians with one of the most fervent patriotic talks that the club has listened to in years. Hovey did everything perfectly right, and John Andrews recited "Breathes there a man with soul so dead", after which the group sang "America, the Beautiful". Sidney Dawson, a colored boy in the School of Fine Arts, sang negro spirituals.

On October 13th Honorable Fred H. Harris, chairman of the Board of Regents, delivered a masterful address on the business of the Board of Regents.

On October 20th Walter Vanum, who is past president of the State Pharmaceutical Society, obtained Dr. Bowers of the School of Pharmacy, who gave us a very enlightening address on "The Educational Requirements for a Pharmacist".
