handling error rate were poorer in the conference games than in the non-conference games.

It should also be noted that for each game point scored in the non-conference games, 20.36 evaluation points (25.36 - 5) were earned by some other method. An analysis of the data shows that scoring a field goal plays a relatively small part in scoring evaluation points, and that ball handling, recovery of rebounds, etc. must be considered to a larger extent.

In the last three games data were obtained on both the Kansas team and its opponents. This material is summarized in the following list.

TABLE III.

Conference Game Records made by Kansas and Opponents:

1. Scores: Opponents, 102
   Kansas, 139

2. Goals: Opponents took 184 shots, made 39 goals; average % 21.2
   Kansas took 165 shots, made 56 goals; average % 33.9

3. Free throws: Opponents took 44 shots, made 24; average % 54.5
   Kansas took 42 shots, made 27, average % 64.3

4. Personal fouls: Opponents, 36
   Kansas, 27

5. Offensive personal fouls: Both teams made 3 personal fouls while they had the ball and called offensive fouls.
