

This player was a forward and had 141.5 minutes of playing time to his credit. He earned 560 evaluation points and 25 score points. He scored 10 goals (30.3%) and made 5 free throws (71.4%). In ball handling he had an error rate of 4.6 which was second highest on the squad. From the standpoint of player efficiency he was twelfth. There was only one other player on the squad that had a lower rate of personal fouls. Player E played 141.5 minutes or over  $3\frac{1}{2}$  games of 40 minutes each and made only 3 personal fouls. He is the first player in the list to catch the ball more than he passed it by 4 catches. He also is the first man on the list to be listed as a forward only. Player B played both forward and center during the season. It seems to be a characteristic of the forward position to demand more catching than passing. The data indicate a low personal foul rate, a poor efficiency rating as compared to the players who played 200 minutes and an error rate in ball handling 4 times as high as that of players A and G. He was rated as sixth by his fellow players and the freshmen, and seventh by the coach.

#### Player F. Forward

This player was listed as a forward and he played 117 minutes, making 12 goals (17.9%), and 8 free throws (57.1%). He earned 628 evaluation points and 32 score points. On the player efficiency chart he rated sixth with a percentage of 94.1. His rate of error in ball handling was 2.070, which placed him in fifth place. Like the preceding player, he had more catches than passes in ball handling. Only one other player (H) had more attempted shots per minute of play and only two squad members made a smaller percentage of their shots. On balls recovered off his own backboard
