

February 24, 1938.

Mr. Lawrence Grauerholz,  
Collegian Sports Editor,  
Kansas State College,  
Manhattan, Kansas.

Dear Lawrence:

Thank you very much for sending the statistics on the Kansas State-Nebraska game. You did not mention the number of goals scored after jump balls. Also, I wonder if you would send me the figures on the number of trials in bringing the ball across the division line, and the total time consumed in bringing the ball across. I will greatly appreciate this additional information.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
