Dean Frank T. Stockton
School of Business
University of Kansas

Dear Dean Stockton:

I recall that last year you asked for a list of our varsity basket ball men as to their eligibility, etc.

I believe that our varsity men showed a total record of 3 hours of failure for the two preceding semesters and while our grades of A, B and C ranked relatively high, we did show the 3 hours of failure.

This year our varsity men have made an even better record than they did last year in that they show no hours of failure. The record of the squad will show

Total Hours				
"A"	"B"	"C"	"D"	"Failure"
108	242	463	89	0

with a grade point average of 1.41.

I thought you might want this for your own record as well as to show what a fine record some of your boys from the School of Business are making. I know that you are especially proud of Sylvester Schmidt as we are. He is a grand chap.

With every good wish, I am

Sincerely yours,

Director of Physical Education
