Latcham to Help as Pioneers Prime for.

HIS battle of Dr. Forrest C. (Phog) Allen with the New York gamblers, who none will deny have their dirty mitts stuck all the way into college basketball, is really getting rough. The good doctor and Lawton Carver, New York sports editor, took the gloves off Wednesday. Our position is simply that of a spectator sitting at ringside, enjoying the brawl.

But when Mr. Carver calls "Phog" Allen "a bumpkin . . . of no particular standing and questionable ability as a basketball coach," we must, however, arise to say that the gentleman is either very ignorant or very mad-or both. And that, in either instance, he is making a blithering ass of himself, and is doing the sports-writing profession no good whatsoever.

"Phog" Allen needs no defense as a basketball coach. But just for the sake of the record—so that all may know the man who is doing the talking-let it be recorded here that Dr. Forrest C. (Phog) Allen is listed by the Helms Athletic Foundation as "FERHAPS THE GREATEST BASKETBALL COACH

OF ALL TIME." The Helms Athletic Foundation, which stands as the last word in basketball ratings, lists Allen's name first in its selection of "The Greatest Coaches of All Time." This list includes, besides Allen, Clair Francis Bee, Nat Holman, Justin M. Barry, Osborne B. Cowles, Clarence Sinclair Edmundson, Lon Walter Jourdet, George E. Keogan, Ward Lewis Lambert and Dr. Walter E. Maxwell.

In making its selection the foundation said: "We have spent approximately six months in preparing the material. In naming the 'Greatest Coaches' Helms Athletic Foundation was guided . . . by the recommendations of collegiate basketball coaches and authorities to whom questionaries were sent. However, decisions were not reached until after the coaching records of the coaches were compiled . . ."

In gathering these records the foundation learned that in the last twenty-five years the Allen-coached Kansas university teams have been either Big Six champions, or tied for the championship, EIGHTEEN Here is Allen's record, taken from the official Helms "Collegiate

Basketball Record"-it needs no further comment: "Born at Jamesport, Mo., Nov. 18, 1885. Educated at University of Kansas and Central college. Member of Kansas basketball and baseball teams, 1906-07. Captain of '07 basketball team. Basketball coach at University of Kansas, 1908-09, winning Missouri Valley championships. 1909-12, coach of Haskell institute. 1912-19, athletic director and coach of all sports, Central Missouri State Teachers college, Warrensburg. 1919-43, inclusive, director of athletics and head basketball coach at University of Kansas.

"Since 1920, Kansas hoop teams under Allen's coaching have won five Missouri Valley basketball titles (1923, '24, '25, '26 and '27) and tied one (1922). Since the formation of the Big Six conference, in 1929, Kansas, under Allen, has won six Big Six titles (1931, '32, '33, '34, '36 and '38) and has tied for the crown on five occasions (1937, '40, '41, '42 and '43).

"Allen's Kansas teams of 1922 and 1923 were chosen for national championship honors by Helms Athletic Foundation, and almost captured the title again in 1936 when the Jayhawkers were undefeated in an eighteen-game schedule. However, in the Olympic games tryout tournament Kansas twice went down to defeat at the hands of Utah State. Kansas won twenty-one straight games in 1936 before losing to Utah State.

"During the seasons of 1922, '23 and '24, Allen's Kansas teams went thru thirty-four consecutive conference games without defeat. During the seasons 1922 to 1927, inclusive, Allen's squads won ninety-seven games and lost but eleven-an amazing record. Three times Allen's teams have lost but one game in a season-in 1923 it was seventeen and one; in 1925 it was again seventeen and one, and in 1934 it was sixteen

"Allen is perhaps the greatest basketball coach of all time. "In addition he has served basketball in many ways, in an executive

capacity, on the rules committee, and on promotional committees. "He was the founder of the National Association of Basketball Coaches of the U.S. A., and served as president the first two years, 1928 and 1929.

"He has served on the national basketball rules committee for many

"Dr. Allen led the crusade to have basketball competition included in the Olympic games, meeting with success in 1936. "He has written many articles on basketball, as well as several

books on the game-including 'My Basketball Bible' and 'Better Basketball.' Nickname is 'Phog.'"

That's "standing" enough for my book. Can Mr. Carver supply one to match it?

UR pick average last week was .829—missing on Ohio State-Great Lakes, Georgia Tech-Navy, U. C. L. A.-St. Mary's Preflight, Texas Christian-Texas Aggies, Fleet City-California and the pro game in which we picked Cleveland over Green Bay. Five ties cluttered up the scene -Holy Cress and Joe Cook's Brown, Tennessee-Alabama, Syracuse-Temple, Missouri-Iowa State and Detroit-Bears.

That brings the season's average to .774 with 103 on the right side and thirty on the wrong.

This is the way they appear for this weekend: DENVER over Utah State; UTAH U. over Nevada; SECOND AIR FORCE over Norman Navy, and FORT WARREN, loser in the first tilt,

Coast Threat Just a Bluff

(By HUGH FULLERTON JR.) New York, Oct. 25.—(A. P.) -The rumor department has it that the Pacific Coast league is threatening to branch out as a third major baseball circuit . . . From this distance it doesn't look like a serious threat-maybe a big stick to persuade the majors to grant that \$15,000 draft price . . . Altho the populations of some west coast cities have increased tremendously, only Los Angeles and San Francisco are of real bigleague size and they're the only ones with big-league seating capacities in their ball parks-25,000 each. The smallest major league park seats about 30,000 fans . . . The other clubs all would have to rebuild their parks, assume major league salary lists and they'd lose the profits they get by developing youngsters and selling them to the majors . . . Add to that the fact that the Coast league, with a record attendance last summer, averaged under 300,000 per club-hardly a get-richquick total . . . And what would they do about the World

Series, anyway?
