SECRETARY
HARE AND HARE
CONSULTANTS

May 29, 1944

Mr. Forrest C. Allen
Director of Physical Education,
Varsity Basketball Coach,
University of Kansas,
Lawrence, Kansas

Dear Mr. Allen:

In reply to your letter to Mr. Les Warren for some information in regard to the lighting of our tennis courts, I am enclosing two prints, which will give you the desired information.

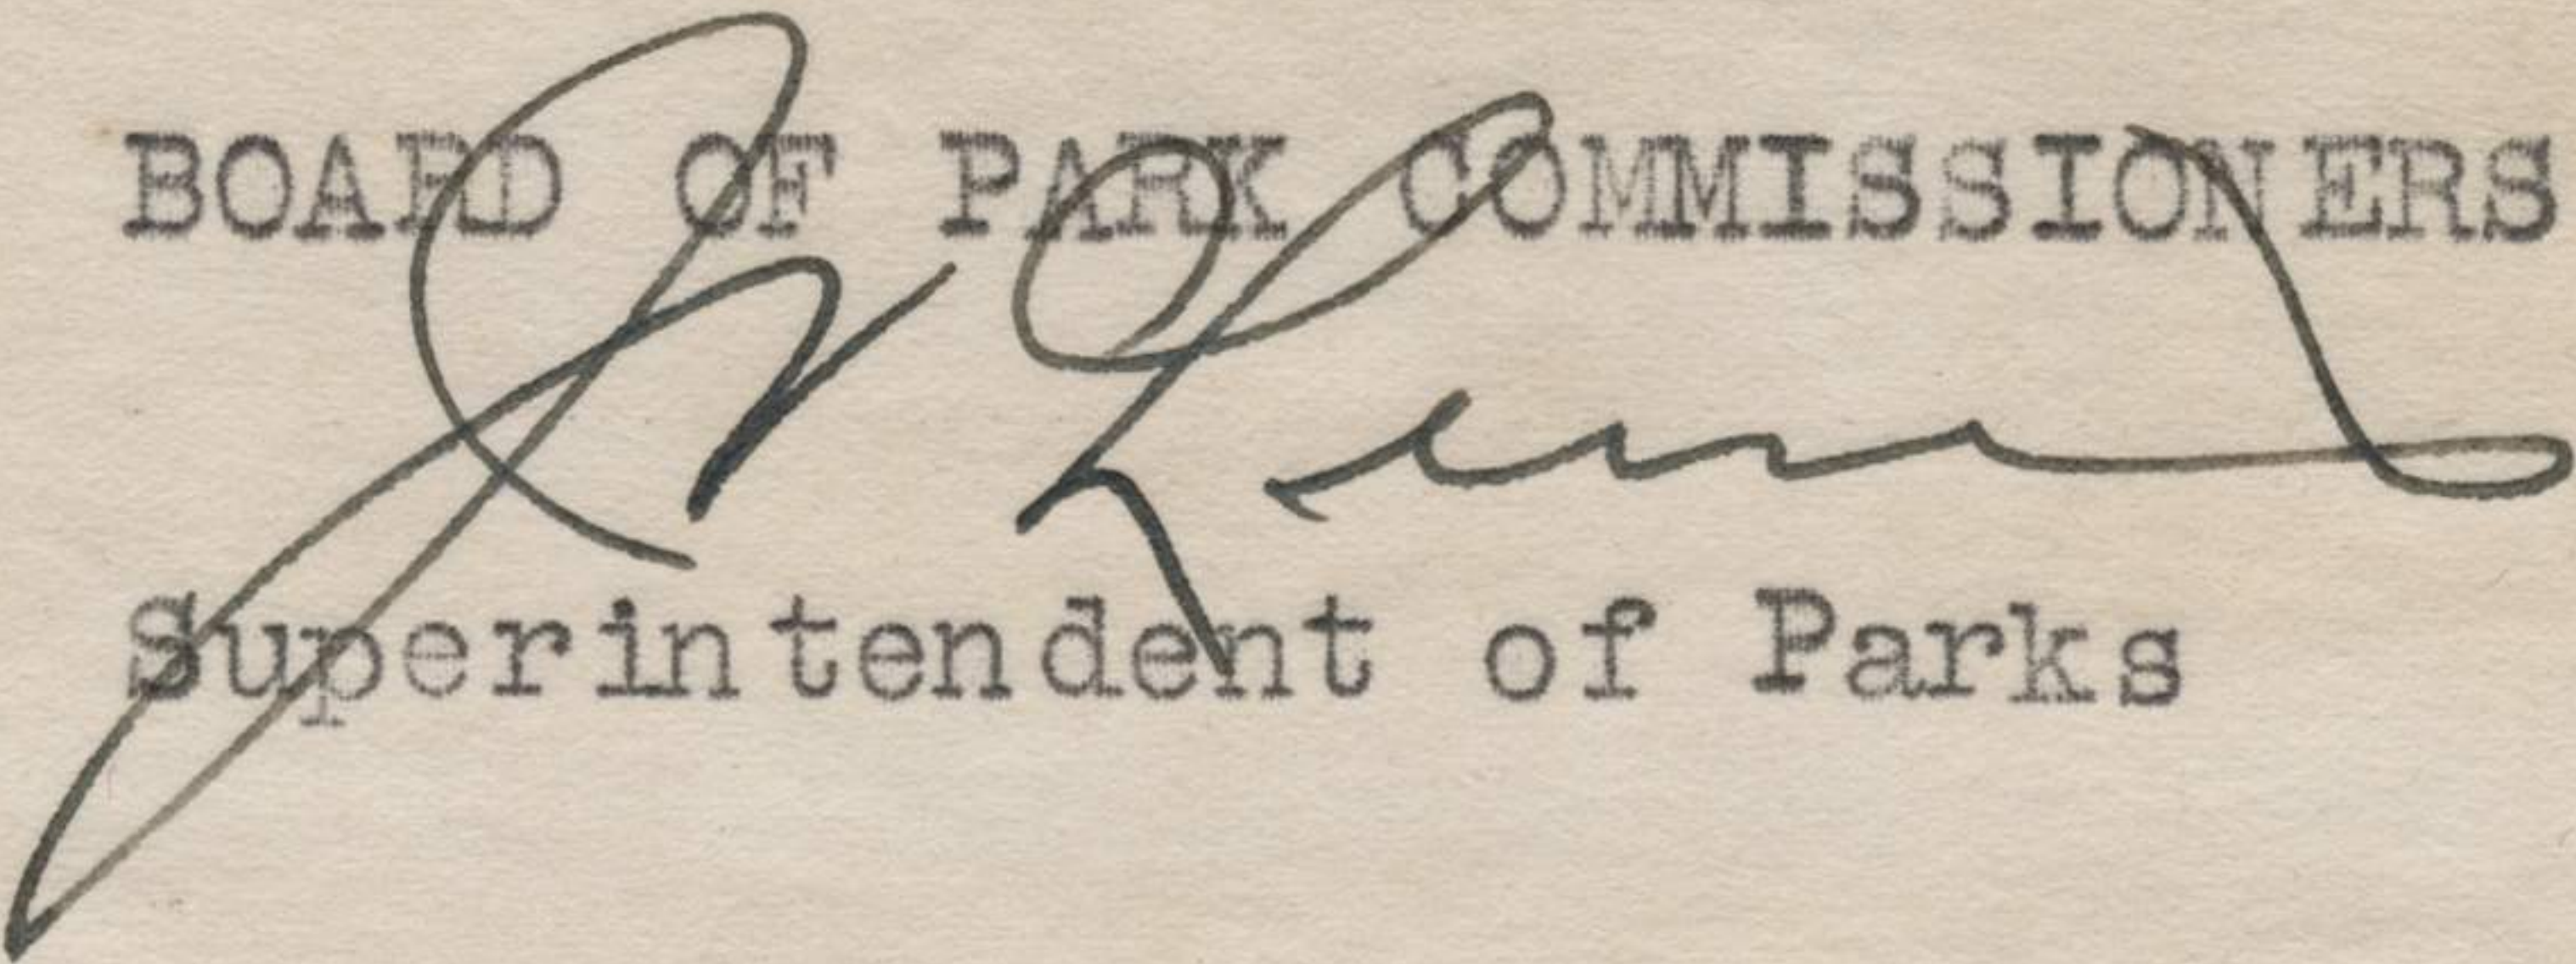

As I told you over the telephone, we have an meter system whereby each court is operated from an individual meter into which a coin is inserted to make contact.

I am sure these meters may not be purchased at this time, and I would hesitate to recommend them to you after our experience in trying to keep them in repair.

In regard to the concrete construction of your courts, I am sure you that if you will get in touch with the Portland Cement Association, they will give you all of the necessary information and specifications.

Very truly yours,

BOARD OF PARK COMMISSIONERS

Superintendent of Parks
